The following orders, issued by the Government of India in the Foreign Department, are re-published for general information:—

Camp Lahore, the 21st November 1878.

The following Proclamation is published for general information:—

# THE VICEROY OF INDIA

TO THE

# AMIR SHER ALI KHAN OF KABUL,

To His Sirdars and Subjects, and to all the People of Afghanistan.

It is now ten years since the Amir Sher Ali Khan, after a prolonged struggle, had at last succeeded in placing himself upon the Throne of Kabul. At that time his dominions still needed consolidation, and the extent of it was still undefined. In these circumstances, the Amir, who had already been assisted by the British Government with money and with arms, expressed a wish to meet the Viceroy of India. His wish was cordially complied with. He was courteously received, and honorably entertained, by the Viceroy, at The countenance and support he had come to seek were then assured Ambala. He, at the same time, obtained further unconditional assistance in arms and money. These tokens of the good-will of the British Government, which he gratefully acknowledged, materially aided the Amir, after his return to his own country, in there securing his position and extending his authority.

Since then the Amir Sher Ali Khan has received from the British Government, in confirmation of its good-will, large additional gifts of arms. powerful influence of the British Government has secured for him formal recognition, by the Emperor of Russia, of a fixed boundary between the Kingdom of The Amir's sovereignty over Kabul and the Khanates of Bokhara and Kokand Wakhan and Badakshan was thereby admitted and made sure; a sovereignty which had, till then, been disputed by the Russian Government. His subjects have been allowed to pass freely throughout the Indian Empire, to carry on trade, and to enjoy all the protection afforded by the British Government to its own subjects. In no single instance have they been unjustly or inhospitably treated within British jurisdiction.

For all these gracious acts the Amir Sher Ali Khan has rendered no On the contrary, he has requited them with active ill-will and open return. discourtesy. The authority over Badakshan, acquired for him by the influence of the British Government, was used by him to forbid passage through that province to a British Officer of rank, returning from a Mission to a neighbouring State. He has closed against free passage to British subjects, and their commerce, the roads between India and Afghanistan. He has maltreated British subjects, and permitted British traders to be plundered within his jurisdiction, giving them neither protection nor redress. He has used cruelly, and put to death, subjects of his own on the mere suspicion that they were in communication with the British Government. He has openly and assiduously endeavoured, by words and deeds, to stir up religious hatred against the English, and incite war against the Empire of India. Having previously excluded British Officers from every part of his dominions, and refused to receive a British Mission; having left unanswered friendly communications addressed to him by the Viceroy, and repelled all efforts towards amicable intercourse between the British Government and himself, he has, nevertheless, received formally and entertained publicly at Kabul an Embassy from Russia. This he has done at a time when such an act derived special significance from the character of contemporaneous events in Europe, and the attitude of England and Russia in relation thereto. Furthermore, he has done it, well knowing that the Russian Government stands pledged, by engagements with England, to regard his territories as completely beyond the sphere of Russian influence. Finally, while this Russian Embassy is still at his capital, the Amir has forcibly repulsed, at his outposts, an English Envoy of high rank, of whose coming he had formal and timely announcement by a letter from the Viceroy attesting the importance and urgency of the Envoy's Mission.

Even then the British Government, still anxious to avert the calamities of war, deferred hostile action, and proffered to the Amir a last opportunity of escaping the punishment merited by his acts. Of this opportunity the Amir has

refused to avail himself.

It has been the wish of the British Government to find the best security for its Indian Frontier in the friendship of a State whose independence it seeks to confirm, and of a Prince whose throne it has helped to support. Animated by this wish, the British Government has made repeated efforts to establish with the Amir Sher Ali Khan those close and cordial relations which are necessary to the interests of the two neighbouring countries. But its efforts, after being persistently repulsed, have now been met with open indignity and defiance.

The Amir Sher Ali Khan, mistaking for weakness the long forbearance of the British Government, has thus deliberately incurred its just resentment. With the sirdars and people of Afghanistan this Government has still no quarrel, and desires none. They are absolved from all responsibility for the recent acts of the Amir; and, as they have given no offence, so the British Government, wishing to respect their independence, will not willingly injure or interfere with them. Nor will the British Government tolerate interference on the part of any other power in the interal affairs of Afghanistan.

Upon the Amir Sher Ali Khan alone rests the responsibility of having

exchanged the friendship for the hostility of the Empress of India.

By order of His Excellency the Viceroy and Governor-General of India,

A. C. LYALL, Secy. to the Govt. of India.

# BYE-LAWS FOR THE LALBAGH MUNICIPALITY.

## For regulating the conduct of business at Meetings.

A LIST of business to be transacted at any meeting of the Commissioners shall accompany the notice calling the meeting, and no matter which is not contained in such list shall be brought forward for discussion at any meeting unless with the consent of the majority of the Commissioners present at the meeting.

2. Any member wishing to bring any proposition before the Commissioners at a meeting, shall give written notice to the Chairman or Vice-Chairman of his intention to do so, and such proposition shall be included in the next list of business which may be prepared

after the receipt of the notice.

# For regulating the time and mode of collecting the taxes.

- 3. A tax collector shall be appointed for the purpose of superintending the collection of taxes. The Municipality shall be divided into four wards, as heretofore, and to these wards shall be appointed seven tehsildars who shall be authorized to collect taxes and to grant receipts within circles specified by the Chairman or Commissioners. The Commissioners may appoint separate warrant clerks or other officers as may be necessary for the realization of taxes.
- 4. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the scal of the Municipality and the signature of the Chairman. Every collecting officer, at the time of demanding payment, shall be bound to show this certificate, if required, and no tax-payer shall be bound to pay unless such certificate is shown and a printed receipt tendered to him.
- 5. For all sums paid on account of any tax mentioned in the Act, a printed receipt signed by the tax collector and the collecting officer, showing the quarter for which the sum is paid, the amount of the tax, the number of the holding, and the name of the ward in which it is situated, and the person from whom the tax is levied, shall be given to the person paying the same.
- 6. The tax collector shall periodically settle accounts with the tehsildars and warrant clerks, at such intervals as the Commissioners may from time to time direct. The tax collector shall report to the Chairman the result of such settlements of accounts and shall certify that the accounts are correct.
- 7. When any tax, rate, or toll is levied by distress and sale of moveable property, payment of the purchase-money and delivery of the property shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer to sell the property again on the same or any other day, and the first or any succeeding purchaser, except the last, shall in such case be responsible to the Commissioners for any loss; such loss shall be recoverable as a debt due from him to the Commissioners.

8. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule, or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission; and to a penalty not exceeding Rs. 2 for every day the omission shall continue.

For regulating the conduct of persons employed by the Commissioners.

9. The Chairman shall have power to inflict for neglect of duty or misconduct a fine not exceeding one month's pay upon any person employed by the Commissioners.

For regulating the disposal of offensive matter, rubbish, and dead bodies of animals.

10. Every person within whose premises any animal may die, shall, within six hours after its death, or, if death occurs at night, within four hours after daylight, either remove at his own expense the carcass to such a place as may be set apart by the Commissioners for the reception of such carcasses, or report the death to the conservancy overseer of the division within which such premises may be situated.

The penalty for infringement shall be a fine not exceeding Rs. 10.

In case the person liable shall not remove the carcass, he shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine, and in case the said person be not the owner of the animal, and the owner be known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners.

11. No person shall dispose, or cause to be disposed of, any corpse or any part of a corpse otherwise than by burning or burying it at or in some lawful burning or burial ground.

The penalty for infringement shall be a fine not exceeding Rs. 10.

12. No slaughter-house shall be kept except at a place assigned for the purpose by the Commissioners; any one found killing animals in any place other than that assigned to him by the Commissioners shall be liable to a fine not exceeding Rs. 10.

13. No person shall sell, or cause to be sold, in any market within the limits of the

Municipality any article of food which is rotten or otherwise unfit to be used as food.

The penalty for infringement shall be a fine which may extend to Rs. 10.

# For the regulation and management of privics.

14. Any owner or occupier of any house, land or premises from which offensive matter is not removed by the said owner or occupier, shall give free access to the servants of the Municipality to his house, land or premises, for the removal of any night-soil or filth within such hours as may have been fixed by the Municipal Commissioners.

The penalty for infringement shall be a fine which may extend to Rs. 10.

15. Every sweeper employed by the owner or occupier of any house, land or premises for the removal of offensive matter from such house, land or premises, shall be subject to the orders, and control of the Municipal Commissioners in respect of the removal and disposal of such offensive matter.

Provided that such owner or occupier shall be responsible jointly with the sweepers so employed by him for the due observance of the laws, byc-laws, and orders of the Municipal Commissioners, so far as regards the house, laud or premises owned or occupied by him.

16. Every person shall construct his privy above ground, and shall provide his privy

or premises with a suitable moveable receptacle.

The penalty for infringement after notice shall be a fine which may extend to Rs. 10.

- 17. Whenever it shall appear to the Municipal Commissioners that a privy is noxious or improperly constructed, it shall be lawful for them to issue a notice on the owner or occupier of any house, land or premises, in or on which such privy may be situated, directing him to fill up, close, or otherwise alter the construction of such privy as may seem to them proper; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter such privy in the manner directed in the notice, and any expenditure incurred in so doing shall be recoverable as a debt due to the Commissioners.
- 18. No owner or occupier of any premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or into any place containing waste and stagnant water), or into any other receptacle, but one of the nature described in Bye-law No. 16.

D. BARBOUR, Offy. Secy. to the Govt. of Bengal.

#### NOTIFICATION.

The 2nd December 1878.—In exercise of the powers conferred on him by section 356. Act V (B.C.) of 1876, the Lieutenant-Governor is pleased to approve the rules, stated at foot of this Notification, which have been prepared by the Commissioners of the Sahebgunge Station in the Sonthal Pergunnahs:-

#### RULES FOR THE SAHEBGUNGE STATION.

# For regulating the Conduct of Business at Meetings.

- The Sub-divisional Officer of Rajmehal for the time being shall be ex-officio Chairman of the Committee.
  - 2. There shall be a Vice-Chairman who shall be annually elected by the Commissioners
- at a meeting.

  8. The Commissioners shall meet in their office at Sahebgunge on the first Tuesday in every month for the despatch of business, and if necessary, on any other day to be named by the Chairman or Vice-Chairman. Each Commissioner shall have the power to call a special meeting by intimating his wish to the Chairman or Vice-Chairman, who shall then fix a day,

issuing the usual notice to all the Commissioners. The attendance of two Commissioners shall always form a quorum. All questions shall be determined by a majority of votes; and in case the Commissioners shall be equally divided, the Chairman shall always have a casting vote. If only two Commissioners are present, no questions shall be carried unless they are unanimous.

#### Appointment of Officers and Servants.

4. The Commissioners shall be competent to employ any number of surveyors, inspectors, clerks, and other officers and servants upon such wages or emoluments as may be deter-

mined upon in each case by the Commissioners at a meeting.

5. Subject to the scale of establishment decided upon by the Commissioners under Rule 4, the Chairman or Vice-Chairman shall have the power to appoint such persons as he may think fit, and from time to time to remove such persons and appoint others in their places: provided that no person shall be appointed to, or removed from, an office the salary of which is more than two hundred rupces per mensem, without the sanction of the Commissioners at a meeting, subject to the confirmation of the Commissioner of the division; provided also that no officer, whose salary is more than fifty rupees per mensem, shall be dismissed without the sanction of the Commissioners at a meeting.

6. All persons employed by the Commissioners, whose services may be no longer required, shall be liable to discharge after receipt of previous notice or pay in advance in lieu thereof, for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice of one month on pain of forfeiture of one month's

salary.

7. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix, and any person failing to furnish such security within such time as the Commissioners may appoint shall be held to have thereby forfeited his appointment and may be removed from office.

# System of Taxation.

- 8. The following taxes shall be levied within the town of Sahebgunge:-
  - (1)—Upon houses and lands at a rate not exceeding 3½ per cent. of their annual value.

(2)-Upon coal stored at one and a half anna per ton per mensem.

(3)—Upon stone, ballast stone, or other building materials stored, not being lime or brick kilns, at one anna per ton per mensem.

(4)—Upon brick kilns at Rs. 5 per lakh of bricks.
(5)—Upon lime kilns at two annas per 100 cubic feet.

(6)—Upon cattle and conveyances kept or habitually used within the Municipality—
(a) eight annas per month for a horse;

(b) four annas for a pony;

(c) two annas for a donkey, pack-bullock, or buffalo;
(d) one rupec for a wheeled carriage with two springs;

(e) two annas for a cart or carriage without springs.

- (7)—Upon all buildings, shops, and workshops, not being habitations, at a rate not exceeding one anna per month per 100 square feet.
- (8)—Upon golahs and buildings used for purposes of storing grain and other merchandise imported and for exportation by wholesale dealers and traders half an anna per month per 100 square feet.

(9)—Buildings devoted to religious purposes shall be exempt from taxition.

9. At the commencement of every year a list of horses and conveyances and of the houses showing the names of the owners and the amount assessed upon each shall be prepared under the superintendence of the Commissioners and shall be signed by the Chairman or Vice-Chairman. The day on which such list is published shall be notified by beat of drum, and notice affixed at the Municipal Office or elsewhere. The inhabitants shall have access to this list at the office, and any person who has reason to complain shall make known his complainant to the Commissioners in writing within fifteen days of the publication. The complainant shall attend at the next monthly meeting of the Commissioners, when any objection he may urge shall be heard and taken into consideration. Should the complainant fail to appear, the Commissioners shall inquire into the merits of the written complaint. The decision arrived at by that meeting shall in any case be final.

10. After the completion of the list, and on the expiration of the term of fifteen days provided for in the foregoing section, no objection to the amount assessed will be admitted as a right; but it shall nevertheless be competent to the Commissioners at any time to alter, diminish, or remit the amount of tax leviable from any rate-payer, when satisfied after due inquiry that any change in his pecuniary circumstances renders such a change, diminution, or remission just and necessary.

11. It shall be competent for the Commissioners at any time during the year to assess, the manner abovementioned, any person who shall come to reside within the town.

in the manner abovementioned, any person who shall come to reside within the town.

12. It shall be competent for any person or company wishing to compound for any of the above taxes either by the month or year, to do so with the consent of, and at the rates agreed to by, the Commissioners.

# For regulating the time and mode of collecting the Rates and Taxes.

- The taxes shall be collected by officers appointed by the Commissioners, and shall be payable quarterly in advance. Any person neglecting to pay the amount due for any quarter within the first month of that quarter, notwithstanding that such amount shall have been demanded of him on behalf of the Commissioners, shall be deemed a defaulter, and be dealt with according to the provisions of the Act.
- Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman or Vice-Chairman. Every collecting officer at the time of demanding payment shall be bound to show his certificate if required.
- 15. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall after warning continue.
- 16. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the Distraining Officer at his discretion to sell the property again on the same day or any other day, and the first purchaser shall in such cases be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.
- All moneys and Government securities deposited by the officers and servants entertained under the Act by the Commissioners shall be transmitted to the Sub-divisional Officer of Rajmehal for safe custody, to be repaid by him on the duplicate receipt of the Chairman or Vice-Chairman countersigned by one of the other Commissioners.
- The proceeds of all collections and fines under these Rules shall be remitted at such time as the Commissioners may order to the Sub-divisional Officer of Rajmehal to be held in deposit by him and to be repaid by him from time to time on the duplicate receipt of the Chairman or Vice-Chairman of the Committee.
- An annual account of receipts and disbursements, and of the demand, collections. and outstanding arrears of taxes, shall be submitted to Government on the last day of April in every year.
- To ensure the due application of the proceeds of the taxes no new work shall be commenced, except under the authority of a resolution passed at a meeting of the Commissioners. Estimates of works, which shall cost Rs. 3,000 and upwards, shall be prepared and submitted to Government for approval, prior to execution of such work or works. A statement of works executed by the Commissioners during the year shall be submitted to Government annually.
- The following are defined to be nuisances in Sahebgunge, and are accordingly hereby prohibited:-
  - 1.—Slaughtering cattle or cleaning any carcass on any road, street, or thorough-

The following are the conditions of sale:-

- 1.-The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.
- 2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.
- 3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.
  - 4.—Each lot shall contain five chests.
  - 5.-A Promissory Note for a sum, calculated according to the scale noted in the margin,

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,000 per chest, Rs. 309 or chest On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400

per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be

re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.-The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

- 7.—No tender of money, Bank of Bengal Receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.
- 8.—The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale; and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the 5th Condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.
- 9.—Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.
- 10.—No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.
- 11.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Sccurities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.
- 12.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.
- 13.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.
- 14.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.
- 15.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1 certificate of the Opium advertised for sale; No. 2, report of the examination of such Opium.
- 16.—The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1877-78, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.
- 17.—Any further information respecting weight or quality of the Opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.
- 18.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out

of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1879, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 60,000 chests of

Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to

period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such Opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such Opium at a sale to be held expressly for the purpose.

#### Article of the Convention above referred to.

"tracting parties that at each of the periodical sales of that article there shall be reserved for "the French Government, and delivered upon requisition duly made by the Agents of His "Most Christian Majesty, or by the persons duly appointed by them, the number of chests "so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale, it being understood that if the quantity of "Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the "intended sales shall have been published in the Government Gazette."

N.B.—Maps are sold at the Office of the Surveyor-General of India, Calcutta, for each prepaid and issued free of charge, only on the Public Service. It is particularly requested that the nearest local Agent as above be first applied to for any map required on the Public Service before indenting on this Department. The cost of packing and postage of parcels must be torno by applicants themselves, as also such incidental charges as may be incurred at their request for mounting and binding maps. The best maps are invariably supplied in lieu of those asked for, which may not be available, and lists of all newly published maps are periodically notified in the Gazettes of India and of Local Governments.

# MEASURES FOR IMPROVING THE DRAINAGE OF THE TOWN OF DINAGEPORE.

FINANCIAL DEPARTMENT.—MUNICIPAL.

Calcutta, the 20th November 1878.

### RESOLUTION.

### READ again-

The Resolution dated the 15th March 1878, appointing the following gentlemen to form a Committee to inquire into and report on the causes of the unhealthiness of the town of Dinagepore and the measures which should be adopted to improve its sanitary condition, viz.—

Dr. R. Harvey, Officiating Sanitary Commissioner of Bengal, President.
The Chairman of the Dinagepore Municipality
The Vice-Chairman of the Dinagepore Municipality
The Executive Engineer of the district
The Civil Surgeon of the district
Dr. K. D. Ghose, Civil Surgeon of Rungpore

Members.

### Read-

Report of the Committee received with the President's letter No. 1049 DC, dated the 14th October 1878, setting forth the causes of the unhealthiness of Dinagepore, and suggesting the measures that appear to the Committee to be necessary for improving its sanitary condition.

The Committee appointed by Government to inquire into the sanitary condition of Dinagepore have clearly shown by an examination of facts which:

are not disputed, by a careful analysis of the statistics of sickness and mortality obtained from various sources, and by medical examination of a considerable number of residents of the town, that Dinagepore is, and has been for some years, extremely unhealthy.

- The Committee have come to the conclusion that, while the unhealthiness of the place is due to some extent to other factors, such as the want of adequate and proper arrangements for conservancy and the disposal of nightsoil, and the existence of well-privies and foul tanks, the chief cause of the unhealthiness is defective drainage. On the West side of Dinagepore flows the Poornabhaba river; on the East is a small stream called the Ghogra, which joins the Poornabhaba at the south-west corner of the municipality. During the rains the highest flood level of the Poornabhaba is considerably higher than the level of the Ghogra and of. portions of the town. The flood water of the Ghogra is therefore headed up, and, with the back water of the Poornabhaba, floods the civil station, the town, and the low lands adjoining to a very considerable degree, the floods varying in extent and duration with the heaviness of the rainfall and the duration of a high water level in the Poornabhaba. The combined effect of the water of the Ghogra thus held back, which receives a considerable portion of the sewage of Dinagepore, and of the decomposed vegetation deposited by the Poornabhaba, is most injurious to health. These inundations are of annual occurrence, and have long been considered the chief cause of the extreme unhealthiness of the town.
- 3. A small area in the south-west corner of the town drains directly into the Poornabhaba close to its junction with the Ghogra, but the greater part of the surface water of the town finds its way mediately or immediately into the Ghogra, and its affluent the Kachai, which is a stream only in the rains, and a marsh at all other seasons and is in a very filthy condition.
- 4. The Committee accordingly propose to clear out the channels of the Ghogra and Kachai, to make an embankment at the present mouth of the Ghogra where it joins the Poornabbaba in order to prevent the floods of the latter river from running up the Ghogra and flooding the town, and to cut a new drainage channel to carry off all the drainage of the town to the Poornabhaba at a point seven miles distant from the town.
- 5. The estimated cost of the construction of the proposed embankment at the mouth of the Ghogra and of clearing out the Ghogra and the Kachai within the limits of the municipality is Rs. 7,996, and that of cutting the main channel which will lie outside municipal limits is Rs. 41,417. As Dinagepore is practically a collection of villages belonging to the Rajah of Dinagepore, and as the main channel will pass through his property and will drain two noxious marshes, the Committee recommend that their scheme be carried out under the Embankment Act (VI B.C. of 1873), but that the total sum which is payable by the zemindar under section 40 of the Act, on account of the cost of the work, be reduced by the amount which the municipality may be able to contribute.
- 6. The municipality is prepared to provide Rs. 18,000, of which Rs. 5,000 will be obtained by a public subscription, and Rs. 3,000 taken from current revenue, while Rs. 10,000 will be borrowed from Government, arrangements being made to pay off the loan by a sinking fund. The Road Cess Committee will be asked to contribute Rs. 5,000, as the works will include a good embanked road for a distance of about five miles in the direction of the Road Cess Committee's road to Gangarampore, and it is hoped that the Lieutenant-Governor will make a grant from Provincial Revenues.
- 7. Owing to the great demand for convict labour in other places at present, the Lieutenant-Governor is unable to give the Commissioners free convict labour for any portion of the work; but in consideration of the public inconvenience and loss due to the ill-health of the public servants, European and Native, in the station, and as an encouragement to local bodies who are willing to undertake local drainage schemes, the Lieutenant-Governor will be glad to give a grant of Rs. 10,000, on condition that the works proposed be put in hand at once, and completed before the 1st June 1879 at the latest.

The cost of the works will therefore be thus apportioned, viz.—

				Rs.
Public subscriptions	•••	•••	•••	5,000
Contribution by the municipality from	n current	t revenue		3,000
From proceeds of loan	•••	•••		10,000
Contribution by the Road Cess Comm	aittee	•••		5,000
Government grant	•••	•••		10,000
Balance to be recovered from the zem	indar	•••		16,413
,		Total	•••	49,413

Of the sum of Rs. 16,413 to be recovered from the zemindar, Rs. 10,000 represents the value of land, and the balance of Rs. 6,413 will be his only cash outlay—a sum which will be a very moderate contribution on his part, considering the advantages that will permanently accrue to his property from the completion of the proposed drainage works.

9. The Lieutenant-Governor approves of the works being carried out under the provisions of the Embankment Act, and the Commissioner of the Division will be requested to instruct the Collector of Dinagepore to take the

necessary steps for the purpose.

10. The Public Works Department of this Government will be requested

to provide the services of an Engineer to carry out the works.

11. In submitting their report, the Committee have also called special attention to the insanitary condition of the town. The Commissioner of the Rajshahye and Cooch Behar Division will be requested to invite the special attention of the Municipal Commissioners to the various minor recommendations made by the Committee, and to report fully what action is taken by the municipality on them.

12. The acknowledgments of the Lieutenant-Governor are due to the President and members of the Committee for their exhaustive and well-

considered report.

By order of the Lieutenant-Governor of Bengal,

D. BARBOUR,

Offg. Secy. to the Govt. of Bengal.

# RESOLUTION ON THE REPORT OF THE CALCUTTA MUNICIPALITY FOR THE YEAR 1877.

# FINANCIAL DEPARTMENT—MUNICIPAL. Calcutta, the 2nd December 1878.

### RESOLUTION.

The Report of the Calcutta Municipality for the year 1877.

The Resolution on the Report for the year 1876.

The report of the Calcutta Municipality for 1877 was received by Government on 29th October 1878, or very nearly ten months after the close of the period to which it refers. This great delay has considerably diminished its administrative value, and is specially to be regretted, as the report deals with the first complete working year of the Municipality since the elective system was introduced, and discloses financial difficulties and mismanagement which should have been brought to the notice of Government in an official form

as soon as possible.

2. In this report it is claimed for the present system that under it the Commissioners of each ward possess a more intimate knowledge of the people and their wants than the nominated Commissioners did. It is said that under "the elective system there is a bond of sympathy between the electors and the elected which is of great moral and practical value," and that the "easy accessibility of the Ward Commissioners, and the sympathy which naturally subsists between them and the rate-payers, are the most important features in the new system of municipal administration." It is maintained as a fact established by the past working of the Municipality that the elected Commissioner realises that he "is indebted to the electors for his position; he is responsible to them for the discharge of his duties: those who have seated him at one election may unseat him at the next if he violates his representative character, and having taken the trouble to secure his election, he naturally feels an interest in his work."

This no doubt is entirely as it should be, and though the picture which the Municipal Commissioners draw in the report of the relations which, in their opinion, exist between the electors and their representatives is hardly in accordance with the prevailing idea in the public mind of the state of things which actually exists, the Lieutenant-Governor would be glad to believe that it was a true one, for it describes a representative body which is almost perfect, indeed perhaps a more perfect representative system than has ever been attained before in any part of the world. The report itself, however, seems to give ground for doubts whether the Commissioners have not described the working of the system in Calcutta as they would wish it to be rather than as it really is. The estimate of the "great moral, practical value of the sympathy" existing between the rate-payers and the elected Commissioners is, it is to be feared, rather theoretical and ideal than real. Sympathy is not a sentiment which can always be gauged by actual results, but in this instance it does seem capable of being tested by figures. Now, it appears from paragraph 13 of the report that three municipal elections took place during the year, and if the interest of the rate-payers in municipal affairs is to be judged by their desire to have a voice in the election of their representatives, it would be difficult to find clearer evidence of the absolute indifference of the people to the privilege of voting than is evinced by the fact that, in spite of an active canvass, out of 615 voters in Ward No. 2, only 213 could be induced to record a vote; out of 123 qualified persons in Ward No. 13, only 44 would come to the poll, while in Ward No. 16 only 10 voters cared to exercise their privilege. This certainly does not indicate any great practical result from the sympathy of the rate-payers for the system of elective representation. In the same manner the sympathy of the elected Commissioners of the different wards for the rate-payers can only be judged by the time and attention which they considered it their duty to devote to the interests of those to whom they were

indebted for their positions. The register of attendance gives the material for making an estimate of these. It will be seen from the report that there were in all 104 meetings of the Commissioners, including both general and committee meetings. Out of fifty elected Commissioners, four contented themselves with one attendance out of one hundred and four, twenty-one attended only seven times, and very few indeed attended more than twenty On the other hand, four or five Commissioners attended regularly and assiduously, and in fact one-third of the Commissioners did five-sixths of the work. No doubt the attendance of the nominated Commissioners was equally irregular. but the nominated members are chiefly men of business, and they complain, and complain very justly, that they cannot give up their time to attend for hours together at long, inconsequential, and very often acrimonious, and useless discussions and prolonged debates in which the importance of the subject discussed has had slight relation to the time occupied in its discussion. The result has been that practically the whole business of the Municipality has fallen into the hands of five or six men. However capable and zealous these few Commissioners may be, this is a result which was never intended when the Municipal Act was passed, and it is one very much to be deprecated, so long as the liability and responsibility is distributed over a large body of persons, though it is quite conceivable that a small body of five or six well selected men would be very much better able, than the Municipality as at present constituted, to manage the affairs of the town efficiently and well, if the whole responsibility was legally imposed upon them.

In dealing with the report for 1876, the Lieutenant-Governor suggested that the business of the Municipality would be greatly facilitated by the formation of separate committees composed of Commissioners having special knowledge of the subjects referred to them, and who would dispose of all unimportant business themselves; this plan, it is said, has not been found to answer, and the special committees have been merged in a general committee called the Town Council, to which questions of all sorts are referred for consideration and

disposal.

The present arrangement is undoubtedly better suited for the transaction of business than one under which all questions must come before the general body of Commissioners assembled at a public meeting, and if several committees whose members possessed special knowledge of certain subjects could not conveniently be formed, it is perhaps the best system that could have been adopted. The Lieutenant-Governor, however, is not at all satisfied that finance might not with advantage be in the hands of a Finance Committee, roads under a Road Committee, sanitation under a Health Committee, markets under a Market Committee, and in the same way engineering, water-supply, lighting, watering, under Special Committees, each committee having a representative in the Town Council. An obvious objection to the formation of only one committee is that the burden of managing the Municipality is unequally distributed, and that, as the Commissioners justly observe, great labour is entailed upon the Commissioners who compose the committee.

4. Municipal Finances.—The present state of the municipal finances is

such as to call for careful examination and for the application of an immediate The financial results of 1877 have been very unsatisfactory, and the Lieutenant-Governor fears that matters have gone from bad to worse in 1878. The errors and mismanagement which have led to this result will be dealt

with in noticing the General Fund.

Municipal Loans.—The loan liabilities of the municipality at the close of the past year stood as follows:—

-			Rs.
Debenture loans from the public at 6 pe	er cent.		<b>54,99,600</b>
Drainage loans from Government at 41		24,59,400	
Market loans from Government at 41 pe	er cent.	•••	12,22,395
Office loan from Government at 41 per	•••	1,30,000	
Water-supply loans from Government:			
First loan at 4 per cent.		•••	52,00,000
Second loan at 41 per cent.		•••	4,11,000
Third loan at 41 per cent.	•••	•••	1,45,000
	Total		1,50,67,395

The question of the consolidation of all the existing loans from Government, except the original water-supply loan of 52 lakhs, into one loan bearing interest at 41 per cent is under the consideration of the Government of India. It is proposed that the amount of the sinking fund belonging to the. loans to be consolidated should be credited in reduction of the consolidated amount due to Government, and that arrangements should be made for the repayment of the balance within a certain number of years by equal halfyearly instalments.

The General Fund.—The budget estimate of receipts of the General Fund for 1877 came to Rs. 17,66,810, and the estimate of charges to Rs. 17,01,795, showing a surplus of Rs. 65,015. So satisfactory an estimate was, however, due entirely to very palpable errors both on the receipt and expenditure side.

On the receipt side credit was wrongly taken for the value of stock and drainage pipes to the amount of Rs. 1,48,174. The cost of these stores when purchased is not returned as expenditure, but carried to a suspense account, and when they are expended their value cannot be treated as revenue. On the expenditure side an arrear contribution of Rs. 60,000, due to Government on account of the Sealdah Hospital, was not provided for, as well as other liabilities exceeding half a lakh of rupees. The Municipality therefore began the year with a wholly incorrect estimate, and all the arrangements for the year were based on misleading data.

If a proper estimate had been framed, it would have shown a deficit of about two lakhs instead of a surplus, and the Commissioners would have seen that the house rate ought to have been raised to  $9\frac{1}{2}$  per cent. instead of lowered to 7 per cent. It is, however, due both to the Commissioners and the Chairman to state that in not providing in the budget for outstanding liabilities they only followed the practice of previous years—a practice which has largely helped to lead the Municipality into its present difficulties.

During the course of the year an addition of Rs. 1,23,500 to the receipts and of Rs. 2,37,741 to the expenditure was sanctioned, changing the estimated

surplus into a probable deficit of Rs. 49,226.

The actual receipts were Rs. 17,21,734, and the actual expenditure Rs. 16,61,333, showing an apparent surplus of Rs. 60,401. This surplus, however, wholly disappears on examination, as it was due simply to the fact that the Municipality was not in a position during the year to meet all ifs liabilities and did not do so. Payments of Rs. 2,26,495 on account of interest, Rs. 90,000 on account of the Sealdah Hospital, Rs. 37,612 on account of the sinking fund, and of more than half a lakh on other accounts, were not made when due.

In this way the real deficit of Rs. 3,45,988 on the revenue and expenditure account of the General Fund was converted into a fictitious surplus of

Rs. 60,401.

The over-estimate of revenue by Rs. 1,48,174, and the under-estimate of expenditure by more than Rs. 1,10,000 (Rs. 60,000+Rs. 50,000) which helped to produce this result, have already been pointed out. The balance of the deficiency is accounted for by the change made during the year in the nightsoil arrangements and by sanctions given for additional expenditure.

The budget estimate of receipts and expenditure for 1877 in connection

with the night-soil arrangements appears to have been as follows:-

•				Receipts.	Expenditure.
				Rs.	Rs.
For removal of night-soil	•••	•••		7,000 \	
From tollah depôts	•••	•••	•••	42,000 (	13,700
,, public necessaries	•••	•••	•••	1,300 (	10,700
" municipal latrines	•••	•••	•••	21,800)	
		Total	•••	72,100	13,700

The estimated surplus from this department was therefore Rs. 58,400, but during the year a new system was introduced under which the receipts were Rs. 1,23,724, and the expenditure Rs. 1,54,203, showing a deficit of Rs. 30,479, and making the net actual expenditure exceed the estimate by Rs. 88,879.

Additional expenditure to the amount of Rs. 80,000 was also sanctioned during the year on account of roads, and about Rs. 15,000 more in small sums. The Commissioners seem to have been induced to sanction the additional expenditure on roads by a misapprehension of the nature of their estimates and accounts, as will be shown hereafter. The errors in the estimate, taken with the change in the night-soil arrangements, and the additional expenditure sanctioned by the Commissioners were sufficient to have changed the estimated surplus into a deficit exceeding Rs. 3,80,000, but owing to slight savings and increased receipts under some heads, and to the fact that the Commissioners neglected to pay money due during the year to the amount of Rs. 4,06,389, the year closed with an apparent surplus of Rs. 60,401; the real result of the year being a deficit of very nearly  $3\frac{1}{2}$  lakhs of rupees.

The Commissioners make the following remarks on this subject :-

"The deficit of 1877 was chiefly due to deficiency of night-soil revenue, to unauthorized excess expenditure on account of night-soil arrangements and under other heads, as well as partly to the unreported arrears due to the hospital for which the framers of the budget of 1877 could not provide from absence of information, and from their inability to foresee the tide which carried the Chairman into excess expenditure.

"The Commissioners cannot dismiss this part of the report without again recording their protest that the Chairman should have expended such a large sum of money as about 3 lakhs of rupees without sanction, viz. Rs. 1,50,000 on account of night-soil arrangements (ride special committee's report), Rs. 26,000 on account of night-soil depôts still unsanctioned, and Rs. 1,14,000 under other heads as per Chairman's memorandum dated 9th May 1878."

The real facts, however, are that the budget of 1877 was incorrectly framed, taking credit as receipts for what was not revenue, and omitting to provide for outstanding liabilities; that these errors led to the budget showing a surplus of Rs. 65,075, instead of a deficit of about two lakhs; that the Commissioners had such confidence in the correctness of their forecast that they reduced the house rate from  $7\frac{1}{2}$  to 7 per cent., when it ought to have been raised to  $9\frac{1}{2}$  to cover the real deficit; that new night-soil arrangements were made during the year which led to a net loss of Rs. 88,879; and that the Commissioners sanctioned an additional expenditure of Rs. 80,000 on roads when there were really no funds from which it could be met.

As regards the night-soil arrangements, it appears from the Report that the Chairman undertook the introduction of the new system in the middle of the year without the sanction of the Commissioners, and without even giving them full information as to his proceedings; that he had formed far too sanguine an estimate of the financial result of the measure, confidently anticipating a profit of Rs. 1,00,000 instead of a loss of nearly Rs. 90,000; and that he incurred a very large amount of expenditure without the sanction or knowledge of the Commissioners. However great an improvement the new system-might be, and no doubt has been from a sanitary point of view, the Municipality was not in a position at the time of its introduction to run any risk of loss of revenue, or to incur any additional expenditure, and the Chairman ought not to have introduced a change of such magnitude without full consideration and approval by the Commissioners, and he ought not to have incurred any serious additional expenditure without their previous sanction. The Chairman acted with very great irregularity and want of judgment, incurring a very serious responsibility, and it is to this that much of the misunderstanding and confusion in the past year is attributable.

The final result has been a deficit at the close of the year, amounting to Rs. 3,45,988, against which there was a balance of Rs. 3,37,305; a large portion of this balance was represented by stores which could not possibly be used in reduction of the ordinary expenditure of any year, and which in all probability could only be sold at a considerable loss; it also appears that the balance of stores in hand is only certified by the persons in charge of them, and that stock is not taken by an independent authority. The business of the Municipality at the end of the year could in fact only be carried on by neglecting to pay money that was due, and by borrowing from funds which were by law appropriated to specific purposes.

The Municipality has been drifting into its present position for some years. In 1876, according to the Auditors' report, there was an excess of expenditure over receipts, amounting to Rs. 1,49,027, and all the liabilities of the year were not met during the year; the action of the Commissioners and the Chairman in 1877 was such as to place the Municipality in a still worse position. The Lieutenant-Governor believes that 1878 will show a further deterioration, and if arrangements are not made in the budget for 1879 to place the Municipality in a sound position financially, it will be impossible for Government to abstain from direct interference.

One of the first changes which the Commissioners should introduce is the organization of a proper system of accounts under a trained and efficient accountant. It is quite clear that hitherto they have been contented to work

entirely in the dark.

Water-rate Fund.—The receipts under this head for 1877 were Rs. 6,18,136 and the expenditure Rs. 3,85,533, giving an apparent surplus of Rs. 2,32,603, but as contributions, to the amount of Rs. 1,74,070, that ought to have been made during the year were not paid, the real surplus was only Rs. 58,533.

The omission to meet the liabilities of this Fund during the year appears to have been due to the fact that the Fund was made to lend from its balance Rs. 1,29,479 to the General Fund, and Rs. 66,550 to the Drainage Loan account. Under section 160 of the Municipal Act the water-rate can be applied only to some purpose connected with the supply of water, and the loan of its balance to other Funds was irregular and improper. The practice of making loans in this way is specially mischievous, as it tends to conceal for a time the financial position of the borrowing Funds which can be carried on only by means of these loans. Apart from the question of these loans, the condition of the Water-rate Fund is satisfactory.

Lighting-rate Fund and Police-rate Fund.—The Lighting-rate Fund and the Police-rate Fund are both in a satisfactory state, but it is not clear what is the exact nature of the Maidan Lighting Fund, the account of which is kept by the Secretary to the Corporation, and which is managed by the Commissioner of Police. The latter officer will be requested to explain the nature of the Fund, and to submit an account in detail of its receipts and expenditure during 1877.

- 5. Collection of Rates.—The new system of collection of rates introduced in 1876 has worked most unsatisfactorily. The Commissioners state that it costs more than the old system, while the collections have fallen off. It is not creditable to the Municipality that no arrangements should have been made for a periodical examination of the outstanding rate-bills in the hands of the collectors and the arrear department. Laxity in this respect opens a wide door for fraud and embezzlement, of which their servants have no doubt availed themselves.
- New Night-soil Department.—The scheme for improving the sanitation of the town by undertaking the removal of night-soil from private houses, though possibly in itself an admirable one, was brought into execution without sufficient inquiry or forethought, and has largely added to the difficulties, especially the financial difficulties, of the Municipality. It seems to have originated from a strike of the mehters, caused by an attempt to make them take out licenses under section 242 of the Municipal Act. The nature of the strike doubtless demanded prompt action on the part of the executive, but the Commissioners justly complain that the Chairman did not give them sufficient information as to his proceedings; that he incurred heavy expenditure without sanction; and that his anticipations of the income and expenditure under the new system were wholly There is no doubt that if the Chairman had submitted his scheme to a Committee of the Commissioners they would have been bound either to have accepted it, or to have adopted some other equally efficient system. In any case he would have been saved from the liability which he has incurred. attempt is made to throw the blame of the financial deficit of 1877 on the new scheme, but, as already pointed out, only Rs. 88,879 out of the total deficit of 3½ lakhs is due to this cause. It remains to be seen what the financial effect of the new arrangements will be in 1878.
- 7. Operations of the License Department.—During the year 26,335 licenses were granted. Of these, 152 were issued to joint stock-companies; 1,425 to merchants and bankers; 216 to barristers, attorneys and pleaders; 141 to mukhtars

and law agents; 16 to surgeons; 100 to licentiates of medicine, apothecaries, veterinary surgeons, &c.; 22 to owners of markets; 124 to hotel-keepers, manufacturers, &c.; 87 to owners of cargo-boats, and 337 to brokers and dealers in precious stones. The remainder were issued to petty dealers, pawn-brokers,

money-changers, &c.

Drainage.—Some progress was made with the drainage of the northern part of the town during the year. The total length of new sewers constructed came to 68,847 linear feet or 13.03 miles. The completed drainage measures 99.58 miles, leaving 75.77 miles still to be constructed. The state of the drainage account, however, at the close of the year was not satisfactory, a considerable amount of the expenditure having been met by borrowing from The budget as originally framed seems to have taken credit for a loan of Rs. 2,00,000, and to have provided for expenditure to the same amount. Estimates for specific works costing in all Rs. 1,23,074 were sanctioned by the Commissioners in April 1877, and similar estimates for Rs. 3,41,488 in the end of November, while a large number of works undertaken during the year seem The amounts borrowed have to have been sanctioned by the Chairman only. doubtless been repaid, but the system of borrowing from funds appropriated to specific works is illegal as well as objectionable on other grounds. As many as 1,240 houses were connected with the sewers during the year. The total number of premises connected with the sewers up to end of the year was 11,590.

Road Department.—The original budget grants for the year under this head amounted to Rs. 2,75,000, but on the Engineer protesting that his estimates had been reduced to an amount quite insufficient to keep the roads in proper order, the Finance Committee recommended, and a General Meeting passed, the following resolution: "that it be understood that the Rs. 80,000 is not to be

taken as an offset against the budget grant of Rs. 2,75,000."

This item of Rs. 80,000 represented the value of stores in hand, and credit had been improperly taken for it as a receipt in the estimates. resolution above quoted, authority was given to the Engineer to spend Rs. 80,000 over and above the grant of Rs. 2,75,000.

The sum of Rs. 80,000 had been wrongly entered as a receipt, and the estimates took credit for the amount; but when further expenditure was required, it seems to have been sanctioned in the belief that it would be covered by this receipt, for which credit had already been taken, and which was in fact purely The result of the double error was to make the position of the Municipality worse by Rs. 1,60,000 than the Commissioners supposed it to be. The actual expenditure in the Road Department during the year came to Rs. 3,42,271. New layers of stone were put on six streets measuring 5,96,493 superficial feet. New layers of khoa or broken bricks were put on seven streets measuring 1,99,010 superficial feet, and thorough repairs were done to 60 streets with stone and khoa measuring altogether 6,54,094 superficial feet, and partial repairs were carried out in every ward of the town. The foetpaths in 41 streets were repaired.

Conservancy-Street watering and the scavengering of the public streets and lanes were fairly carried out during the year. 7,163 wagon loads of refuse were removed from the town to the Salt Water Lakes. The drains, public urinals, and latrines were regularly looked after, and the sewers flushed. The number of persons prosecuted for breach of the conservancy rules was

1,306, and the number convicted was 655.

Tank-filling.—Fifty-four tanks were emptied during the year, and 38 were filled up with street refuse. The work of filling up 10 more tanks was in progress at the close of the year. A very large number of open tanks (i.e. tanks which are not enclosed and private) still remains to be filled up. The quantity of materials available for filling tanks is very limited, and the work will take a long time to complete. But whatever tanks are taken in hand should be filled up as soon as possible, and immediately covered with earth; to partially fill up a tank or to leave the sweepings thrown into it uncovered is likely to do more harm than good.

Bustee Improvement.—A suggestion was made last year that the municipality should set aside a sum of money every year for the purchase of bustees, should clear and improve the sites thus obtained, and sell the lands for the erection

of houses on approved plans.

The financial difficulties under which the municipality labours, however, have not permitted the Commissioners to set aside money for this purpose, and it seems highly improbable that they will be able to do so for a considerable time. Most of the proprietors are unable to incur expenditure on improvements, and, as money cannot be borrowed under the Act for this purpose, progress for some years must necessarily be slow. Although no interior confor some years must necessarily be slow. Although no interior conservancy of bustees was undertaken, except in a few cases where the owners could be induced to pay for the work done, many improvements of minor importance were effected in different parts during 1877 by filling up tanks and foul ditches and laying out new roads. Two proprietors of bustees also undertook improvements in accordance with plans approved by the Municipal Engineers; some new roads were projected, and are stated to have been since taken in hand. It is a subject for regret that want of money necessitated the discharge of the bustee sweepers, who are reported by the Health Officer to have been doing so much good work; and that the important work of general improvement should now be hindered by difficulties which could not have arisen if the affairs of the Municipality had been properly managed during the last few years. It seems to be a great pity that the work was taken out of the hands of the Health Officer and placed under the Engineer Department.

11. Reclamation of land.—The management of the square mile of land owned by the Commissioners in the Salt Water Lake, and used for the deposit of rubbish, appears to be satisfactory. The soil is admirably suited for the cultivation of the more valuable crops and of garden produce, and the trees that have been planted are in a flourishing condition. The inhabitants of the six villages situated on this land are increasing in number, and it is worthy of note that they continue to enjoy comparative immunity from sickness.

Water-supply.—The quality of the water supplied to the town, though not quite equal to that of 1876, was still good. The daily 'average quantity of water supplied to the town was 6,719,266 gallons, or 178,112 gallons more than that of the previous year. Seven hundred and ninety-six premises were connected with the water-supply during the year, of which 788 were for domestic purposes. The number of premises now connected is 10,471.

Lighting of the town.—The total number of gas lamps lighted in the town, at the expense of the Municipality, was 2,794, and the total number of oil lamps was 787. The average illuminating power of the gas during the year was 14.02, the power required by the contract with the Gas Company being only 12. The illuminating power of the gas was somewhat greater in 1877 than in 1876, but is still capable of being increased, and its purity might be greatly improved. It is hoped that the new contract provides for improvements both in purity and in lighting power.

12. Vital statistics and health of the town.—The number of deaths registered in the town during the year was 13,704, against 12,964 in the previous year. This gives a death-rate of 31.9 per thousand of the population—a percentage higher than that of any previous year within the last seven years except 1875, as shown below:—

1871		•••	•••	• • •	•••	23.9
1872	•••	•••	•••	•••	•••	24.1
1873	•••	•••	•••	•••		24.1
1874	•••	•••	•••	•••	•••	26.8
1875	•••		•••	•••	•••	32.7
1876	•••	•••	•••	•••	•••	30.1
1877	•••	•••	•••	•••	•••	31.9

The Commissioners call attention to the fact that the death-rate during 1875, 1876, and 1877 was much higher (about 25 per cent) than during 1871, 1872, and 1873, notwithstanding the large outlay upon sanitary improvements; the comparison is not a fair one, both because previous sanitary improvements influenced the death-rates of 1871, 1872, and 1873 and because deaths have been more accurately registered during the last few years than was formerly the case, and the year 1877 was, it is believed, an exceptionally unhealthy year outside Calcutta as well.

The following tables show the number of deaths and births during 1877 classified according to nationality:—

				Deaths.	Birthe.
Hindoos	•••	•••		9,200	4,873
Mahomedans		•••		3,614	1,820
Non-Asiatics	•••			314	230
Mixed races	•••	•••		<b>5</b> 0 <b>4</b>	482
Other religious creeds	•••	•••	•••	72	52
		Total	•••	13,704	7,457

Of these, 4,111 were male births and 3,446 were female births. The ratio

of births per 1,000 of the population was 17.3.

The deaths from cholera in 1877 were 1,418 as against 1,857 in 1876. Although the number was less than in the preceding year, yet the steady increase of cholera from 1871 is very remarkable, and has never been satisfactorily explained. The Commissioners do not attach the same importance to impure water as a cause of cholera that Dr. Payne does; but it cannot be denied that impure water is a fertile source of diseases of all sorts, and the completion of the arrangements for an adequate supply of pure water for the town, and for the removal of all sources of impure water, would be of incalculable benefit to the community. The deaths from fever in 1877 were 5,151 as against 4,361 in 1876. The native Commissioners who can recollect the reputation which the native part of the town had before the filtered water-supply was introduced ought to have a greater appreciation than they seem to have of its value.

The Lieutenant-Governor has again observed with regret that there has been a want of harmony between the Commissioners and the Health Officer—a want which greatly impedes the work of sanitation, and has given rise to much unpleasant discussion. There is nothing to be gained by entering into the details of the disputes, but the action of the Health Officer in issuing notices on the proprietors of all open tanks was injudicious, and the notices seem to have been issued under some misapprehension of the law.

The Lieutenant-Governor hopes that these misunderstandings are gradually disappearing, and that there is a disposition on the part of the Commissioners to recognize the ability and remarkable earnestness with which Dr. Payne has laboured for the good of the town, even though they may not entirely agree with him in respect to all the details by which he desires to attain that end. Dr. Payne has shown of late a truer appreciation of his position in respect to the Corporation, and the Municipality should now give him their cordial

support and co-operation.

The hope formerly expressed that useless and irritating discussions would be avoided, and the work of sanitary reform, as well as the general business of the Municipality carried on vigorously and earnestly, has been disappointed; prolonged and unprofitable discussion has been the chief characteristic of municipal administration; important changes have been made and heavy expenditure incurred by the Chairman without the previous sanction of the Commissioners, and both the Commissioners and the Chairman have failed to grasp clearly the financial position of the Municipality or to control its working effectively. As the necessary result, a still heavier burden of taxation must be borne by the Town during the next few years, and the sanitary improvements so greatly needed cannot fail to be delayed or postponed. Commissioners urge that the introduction of the elective system was accompanied by a limitation of their powers, but the restrictions introduced have taken the form of securing to the Government a means of interfering in case of necessity, rather than of a direct limitation of the powers of the Commissioners, and the results of the past two years certainly seem to show that if the Government has erred at all, it has certainly not been by retaining excessive powers of interference. In view of the facts now revealed in this report, it would certainly not be to the interests of the inhabitants of Calcutta that any existing restrictions should be relaxed. The experiment of what is often called a representative system of municipal administration of the town of Calcutta may, as is frequently asserted, be a very interesting experiment; but after all it must be recollected that it is only an experiment, and having regard

to the enormous outlay and heavy liabilities of the town, it is certainly a very dangerous experiment, which requires the most careful watching. The Municipality is responsible for a debt of Rs. 1,50,67,395, and the security under which the loans have been contracted is the power of the rate-payers to meet taxation. While perfectly willing to give the present system a fair trial, it is impossible to allow it to continue till it threatens to destroy the prosperity of the city. The present year commences under a new Chairman. The Commissioners have before them a clear statement of their very unsatisfactory financial position, and the Lieutenant-Governor hopes that they will now set to work to improve the state of the finances, and to introduce the reforms which are so urgently needed in every branch of the Municipality. If the year 1879 does not show a very much more favourable working of the municipal administration, it will be the imperative duty of the Government to place the control of the affairs of the town in other hands.

By order of the Lieutenant-Governor of Bengal,

D. BARBOUR,

### NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet in elevation the reduction is made by Captain Allan Cunningham's table, "Prof. Papers on Indian Engineering, No. CXIII." The temperatures at the sca-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by o, and one completely overcast by 10.

The above, being all comparable, afford the data for constructing a meteorological chart for the month, which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

### ANNUAL REPORT ON IMMIGRATION IN JAMAICA.

The Lieutenant-Governor is pleased to direct the publication in the Calcutta Gazette, for general information, of the following Annual Report on the Immigration Department in Jamaica for 1876-77:-

Copy No. 1214, dated Immigration Office, 29th December 1877.

From—A. II. ALEXANDER, Fsq., Agent-General of Immigration, To—The Hon'ble the Colonial Secretary, Kingston.

I have the honor to submit, for the information of His Excellency the Governor, the Annual Report of the Immigration Department for the financial year ended 36th

September last.

2. No immigrants have been introduced from India during the period now under review, the fund applicable for this purpose having become exhausted as stated in the 20th paragraph of my Report No. 1008/1213, dated 30th December 1876. In consequence, however, of the pressing application for coolies, and pending the general settlement of the question, His Lordship the Secretary of State for the Colonies consented that two ships should be despatched from India with immigrants during the coming season.

The number of coolies applied for this year being two thousand seven hundred and ninety, sufficient for seven or eight ships, the despatch of only two vessels will cause great disappointment, inconvenience, and loss to those who require immigrants. This disappointment is rendered greater from the fact that all classes of the community seem to be now of one opinion as to the urgent need of extensive and extended immigration. As a proof of this, I would mention that a public meeting was recently held in Kingston, at which resolutions were passed by ministers of religion, merchants and others, besides planters, bringing prominently to the notice of the Government the general opinion that colonization and immigration are necessary in the interest of all classes.

The repeated visitation of famine in India during the last three years has caused more than usual interest to be taken in regard to immigration matters, and there is a generally expressed hope that the Indian Government will now do more to assist emigration. Towards the relief of the sufferers, upwards of one thousand pounds have been received by subscription, many coolies being contributors. On one estate twelve pounds eight shillings were subscribed by the coolies.

5. There has been a slight increase in the death-rate when compared with last year—

1876-77. 1875-76. 2:34.

This is no doubt due to the fact that the past year has been unusually unhealthy to all classes of the population. It is however, a matter for congratulation that the mortality in Jamaica amongst the indentured immigrants, many of whom, it must be remembered, are not yet acclimatized, is so low as to bear comparison with the most favored countries in

6. The deaths which occurred this year have been almost counterbalanced by one Europe. hundred and one births during the same period, equal to a percentage of 2.24. Referring to the children born in Jamaica, Dr. Neish, the Parochial Medical Officer of the Linstead District, in his annual report writes—"On Tutloch Estate there is a large band of free coolies. employed. Among the families of these people there are many children of all ages now growing up. These children present a physique and maintain a degree of good health than which no better proof can be furnished of the fitness of the climate of Jamaica for the Hiadoo which no better proof can be furnished. race, and their condition serves also to prove that the generation of colony-born coolies is not at all likely to deteriorate. Indeed, I am of opinion, from observations made amongst these children, that they are physically and mentally superior to their parents. The regular feeding of the children, under the system of rations adopted by the Immigration Departments, I consider in a great measure accountable for this desirable state of things."

7. During the past year, the immigrants who arrived in 1872 by the ships Merchantman, Salisbury, and Humber, completed their term of indentured service, and, with the exception tion of a few who are making up to their employers time lost by illness, &c., during this period, they have received certificates of exemption from further service under

indenture

8. The immigrants who arrived in 1867 in the ships St. Hilda, Ganges, Salamanea, and Corona have this year completed their ten years of residence in the colony, and become entitled to return passage to India, or the bounty in lieu thereof. Of these coolies, one thousand and thirty-three have elected to settle in Jamaica, one hundred and ninety-one returned to India this year, one hundred and six had previously gone back either as invalids or by paying their own passages, and some are still undecided as to what they will do. The large number, one thousand and thirty three, who have decided to remain here is a satisfactory proof that the coolies like Jamaica, and I am very sanguine that in the future the proportion of coolies settling as colonists will increase annually. There can be no possible doubt that, as a body, the coolies are prosperous, happy, and contented, and there are individual cases which prove that a steady and industrious man can acquire a handsome competence and even wealth. No one acquainted with the coolies in Jamaica can doubt that their position, morally and socially, is far in advance of that which they held in India, and of this no one is more fully aware than the coolies themselves.

As bearing on this point, the following extract from Dr. Honiball's report for the past

year is interesting:

"The morality of the cooly has been frequently called in question by certain sections of the community of this colony, and fears were freely expressed that the native population would become contaminated and imbued with the "Asiatics" imputed sensuality, and degrading superstitions; but, much as I like the negro, both for his magnificent bodily degrading superstreams, site, intent as I like the larger, sold for the inaginiteent boding physique, cheerfulness and general good temper, and his superior adaptation for cane cultivation, I cannot shut my eyes to the fact that the balance of the contemplated vation, I cannot shut my eyes to the fact that the balance of the contemplated danger inclines very decidedly to the other side. I have known the coolies, ox-ship six years intimately in all his relations of life; I have watched the coolies, ox-ship six years intimately and sought assistance. Chetah, carefully, and sought assiduously to thoroughly understand and know them, and I cannot refrain from remarking, and, I submit, I do so with a considerable amount of authority and experience, that the Indian immigrant is more exempt from gross immoof authority and experience, that the Indian immigrant is more exempt from gross immoof authority and experience, that the Indian immigrant is more exempt from gross immoof authority and experience and demonstrations then the pages this in the page of the contest of the contes rality, lowering vices, and demoralizing superstitions than the negro; this is a fact both notorious and distinctly demonstrable."

9. The ship Chetah sailed on the 24th June last with three hundred and sixteen return

coolies for Calcutta:-

212 men. 62 women. 17 boys. 23 girls. 2 infants. 316 souls.

This number was made up of the one hundred and six people already alluded to, several invalids released by the Governor from service under indenture on account of permanent infirmity or sickness, and a number who, not having yet completed their ten years resi-

dence, availed themselves of the opportunity of returning at their own expense.

10. An amount of four thousand six hundred and eighty-nine pounds twelve shillings was lodged at the treasury here by one hundred and one of these coolies, giving an average to each of forty-six pounds eight shillings and seven pence half-penny, in sums varying from eight hundred and sixty-four pounds downwards. Further sums, amounting to three hundred and sixty-one pounds two shillings, which had been deposited, were returned to five coolies who, shortly before the sailing of the ship, decided to settle in Jamaica, instead of returning to India. In addition to the money deposited, the coolies possess much wealth in their ornaments, some carrying on their person as much as thirty to forty pounds.

The arrangements mentioned in paragraph 14 of my last annual report, for the careful examination of the people prior to embarkation, were attended with most satisfactory results, there having been only five deaths on the voyage. Similar precautious were again adopted this year, and from the reports received from Mauritius, where the Chetah called, the voyage had so far been very satisfactory.

12. During the past year it was found that a reduction to the amount of three pence per diem in the rate payable by employers for the care and maintenance of sick immigrants in the Union hospitals could be effected without any diminished efficiency in the management of the institutions. The hospitals throughout the island are now in a very satisfactory condition, they are carefully and economically managed, and provide everything necessary for the successful treatment of the sick. I am glad to state how much the department is indebted to Dr. Mosse, c.B., and the medical officers of these hospitals, and how much of the success which has resulted is due to the effective aid which most of them have obserfully rendered, notwithstanding their varied and uncertain duties in their extensive districts.

The indentured service of the immigrants located in the district of St. James having expired during the year, the Sub-Agent has been transferred to the district of St. Thomas to fill the vacancy caused by the death of Mr. Hider. The Union Hospital at

Silver Grove, in the same district, has also for the same reason been closed.

The returns from the officer in charge of the Depôt Spanish Town show that, during the past year, one thousand and fifty-one cases were treated in that institution. Of this number, eight hundred and fifty-seven were discharged cured, thirty-seven discharged relieved, twenty-one died. eighty-eight returned to India in the Chetah, two were transferred to the Lanatic Asylum, eleven to the Leper's Home, leaving thirty-five under treatment on the 30th September last.

15. In June last the Parochial Hospital at Port Maria was amalgamated with the Cooly Union Hospital at that place. I am glad that this experiment has proved satisfactory, and there can be no doubt that a large saving of money must result from the amalgamation of similar institutions wherever practicable. To Dr. Pringle of Port Maria is due

the credit of having successfully aided in carrying out the new system.

16. The amount of crime during the year has been very small, the only serious case being one in which a wife was killed by her husband in a fit of jealousy. The man was tried, and is now undergoing a sentence of penal servitude for life. Considering the peculiar customs of the Indians regarding any offence against conjugal fidelity, this solitary case, amongst so large a number, proves that the coolies in Jamaica soon adapt themselves to the laws and customs of the colony.

### RESOLUTION ON THE ANNUAL REPORTS ON CINCHONA CULTIVA-TION AND ON THE QUINOLOGIST'S REPORT.

# FINANCIAL DEPARTMENT—AGRICULTURE. \*\*Calcutta, the 10th December 1878.

### RESOLUTION.

READ-

Letter from the Superintendent of the Royal Botanical Garden, Calcutta, and of the Government Cinchona Cultivation in Bengal, No. 84C, dated 18th October 1878, submitting the annual report of the Government Cinchona Plantation in British Sikkim for the year 1877-78.

Letter from the Government Quinologist, No. 48, dated 17th October 1878, submitting his annual report for the year 1877-78.

The Cinchona Plantation consists of two parts—the older portion at Rungbee, Rishap and Mungpoo, in the valley of the Rungjo; and the newer on the Sittong spur and in the adjoining valley of the Ryang. The working of the plantation during the year 1877-78 was, on the whole, very satisfactory. The Sittong Plantation was increased by  $152\frac{1}{4}$  acres, and the older plantation by  $97\frac{3}{4}$  acres. The total area of the former is now 242 acres, and of the latter nearly 2,000 acres. The Sittong Plantation is still too young to yield a crop, but the crop from the older portion was 344,225b of dry bark.

2. During the year under review 706,600 red bark trees (Cinchona succirubra) were planted out, namely, 26,800 in Rungbee and Rishap, to replace

o trees

excellent bark and promises to be very valuable. Innotes here to increase the cultivation of the yellow bark tree (C. calisaya), which produces the most valuable of all the medicinal barks; but owing to the difficulty of propagating the best varieties by seed progress has been slow. The result of the year's operations with these plants has been only to increase the stock in the nurseries by 2,000 plants. The question of selecting other localities, where the climatic conditions are more favourable for the propagation of this plant than in Sikkim, has been separately submitted by Dr. King, and is under the consideration of Government.

3. The crop of the year consisted of 341,060th of red bark, and 3,165th of grey bark, or 344,225th in all of dry bark, against 207,781th in 1876-77 and 211,391th in 1875-76. The bark yielded in former years, i.e., from 1869-70 to 1876-77, amounted in the aggregate to 529,017th, so that there has been taken from these plantations since their commencement no less than 873,242th of dry bark.

4. The red bark crop was taken by the three methods of harvesting usually followed, namely, uprooting, coppicing, and thinning:—

Uprooting ... ... ... ... 176,625
Coppicing ... ... ... ... 67,161
Thinning ... ... ... ... 97,274

Total ... 341,060

Ninety-two and a half acres of trees planted at distances of six feet by six were uprooted and 176,625th of bark thus obtained, being at the rate of 1,909th per acre. The land on which these trees were grown was not well suited for cinchona cultivation, and the outturn given above does not include bark obtained in past years by thinning and pruning. The experience gained on the plantation is sufficient to show that complete coppicing, viz. cutting close to the ground all but a few trees, is a perfectly safe way in Sikkim of taking the bark crop. Trees from four to six years of age coppice better than older trees, but the method of partial coppicing results in failure with trees of every age.

The total expenditure on the plantation amounted to Rs. 68,110-10-9, of which Rs. 13,716 was on account of establishment for the two divisions, Rs. 46,508-4 on account of working expenses of the old plantation, and Rs. 7,886-6-9 on account of capital charges for the Sittong division, which has not yet come into bearing. Putting aside the last-mentioned sum and the proportion of establishment for the Sittong division (Rs. 2,325-11-3), the working expenses of the old plantation came to Rs. 57,898-8-9.

The febrifuge, to the production of which the bark is now devoted, is manufactured in the factory at Mungpoo, which was considerably extended during the year, and to which a permanent dry-house was added at a cost of Rs. 2,014-8. The total quantity of bark taken during the year was made over to the Quinologist and 239,680lb were used in the manufacture of febrifuge. The total quantity of febrifuge produced was 5,162tb, the cost being Rs. 61,327-7, or at the rate of Rs. 11-14-1 per pound. The quantity in store on the 1st April 1877 was 3,720lb 2 oz., so that the total quantity at the disposal of the Superintendent during the year was 8,882lb 2 oz., which was thus distributed:—

- To simplify the accounts, the entire crop of the year was made over to the Quinologist, to whose account also was debited the entire working expenses of the plantation. As stated in paragraph 5 above, the expenditure on the plantation during the year, excluding the Sittong division, was Rs. 57,898-8-9, and the Quinologist's expenditure was Rs. 27,641-5-8, making a total of Rs. 85,539-14-5. The revenue derived from the sale of febrifuge to the public was Rs. 35,193-14, and the amount debited against the Medical Departments of Bengal and Bombay for febrifuge and bark supplied was Rs. 61,876-13, making a total sum of Rs. 97,070-1. The excess of receipts over expenditure was therefore Rs. 11,530-2-7. This being the first year in which the febrifuge entered into general use in the Government dispensaries, or was available to the public, the financial result is satisfactory. saving to Government by the substitution of the febrifuge for quinine in the Government hospitals and dispensaries is calculated to exceed three lakhs of rupees a year. The consumption is increasing, and the question of providing greater facilities for the sale of the febrifuge throughout the province is now under the consideration of Government. The public generally have not yet realized that a febrifuge practically as efficient as quinine can be procured in almost any quantity at one rupee the ounce, while quinine is selling at 20 rupees the ounce. Pending the final orders of Government on the question, the Superintendent should place himself in communication with the officers in charge of the districts in which fever has lately been very prevalent, such as Dinagepore, Rungpore, Jessore, Hooghly, and Burdwan, with a view to supplies of the febrifuge being made available to the people within easy reach of their homes.
- In the resolution on the report for the year 1876-77, it was stated that a committee had been appointed to ascertain whether the febrifuge could be improved by eliminating any of its constituents. The committee has not yet concluded its investigations, but increased experience in the use of the drug during the year under review has produced such confidence in its enleacy as a remedy for fever as to warrant its substitution for a large portion of the quinine hitherto supplied to Government institutions.

The maps of the plantation prepared by the Survey Department have proved of great use in facilitating its systematic working, and arrangements will now, if possible, be made for mapping the portion planted since 1875.

The acknowledgments of Government are due to Dr. King and Mr. Wood for their services during the year, and the Lieutenant-Governor

1	1	Burdwan,	Dec.	7	'78	Nil	Weather—not as cold as is usual at this season. Clouds hanging about. The amun crop is being reaped. The outturn will be very good. The rubbee crops are doing well.
<b>×</b>	2	Bankoora,	**	7	,,	Nil	Sky dark and heavy. Weather cold in the early part and warm in the latter part of the week. No change in the state and prospects of the crops since last week. The fever in the east is still spreading.
r Dir	3	Beerbhoom,	,,	8	,,	Nil	Weather-cloudy and somewhat threatening. The state and prospects of the crops continue very good indeed.
BURDWAR DITM.	4	Midnapore,	,,	7	,,	Nil	Weather—close, cloudy, and unseasonable. The temperature is exceptionally hot for the time of the year. The amun crop is still being cut, with every prospect of the outturn being extraordinarily good. The majorious fever, which is raging in the town, has resulted in a higher death-rate for the last week than has been known for years.
	Б	Hooghly,	,,	7	"	Nil	Weather—cloudy and warm. The harvesting of kartiesali is nearly at an end. The prospects of the amun crop are good, and in places harvesting has commenced. The prospects of the rubbee crops-seem generally favourable. Fever is prevailing everywhere.
\		Howrah, Mohesrak	Dec. ha	9	,, 	0 01 0·11	Weather-most unaccountable for the time of year; close and cloudy almost throughout the week. The state and prospects of the crops are very good as reported from everywhere.
		Central 1	Distric	ts			
ان	6	24-Pergunnal	ir, Dec.	. 7	<b>'7</b> 8	Nil	Weather-warm and cloudy for the last two days. The state and prespects of the crops are favourable. Fever still continues. There is also much sporadic cholera.
PRESIDENCY DIVE.	7	Nuddea,	"	7	,,	Nil	Weather—rather warm and cloudy. The amun is being harvested with a good outturn. The winter crops are generally fair. Locusts are said to have appeared in the north of the district. Cholera and malarious fever prevail in some places.
Presii	8.	Jessore,	•	7	"	Nil	Weather—hot, sultry and unseasonable. The prospects of the rice and winter crops are good. In Jhenidah it is reported that the weather at present is bad for date-juice. Fever is prevalent in Jessore and Magoora.
	9	Moorshedabac	3, ,,	7	,,	Nil	Cool cloudy weather. The rubbee crops are coming up well, and the amun crop is being cut. Fever is very prevalent.
	10	Dinagepore,	"	6	,,	0.02	Weather—cold and fine. The prospects of the crops are favourable. The reaping of the haimanta rice is progressing, and the cubbee crops are still being sown.
HAN DIVR.	11	Rajshabye,	29	7	,,	Nil	No rain during the week. The dian is being cut with good results. The rubbee crops are thriving. Cases of cholera are reported from Nattere and Godagaree stations.
COOCH BE	12	Rangpore,	19	6	,,	Nil	Weather—cooler, with a strong breeze in the morning, which dies off towards midday. The prospects of the crops are unchanged. Cholera is still reported in the north-east of the district.
Калянацте ань Сооси Вкиан Діги.	13	Водга,	,,	7	,,	Nil	Weather—cloudy since the 6th instant, with light north wind. Warm for the season of the year. No rain. Amon is being reaped, and is expected to yield a good outturn with exceptions previously reported. The winter crops look well. Prices have somewhat tallen this week. Cholera prevails in the eastern part of the district. 100 fresh cases and 54 deaths have been reported during the week.
	14	Pubna,	"	7	"	Nil	Weather—cloudy and close. Wind light and variable. The amus harvest is in progress, and the prospects of the winter crops are good. Prices have fallen to some extent at Serajgunge, though not at head-quarters. Cholera has not yet disappeared in the Serajgunge sub-division. There is a good deal of fever in the town of Pubna.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four fect above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The following are the conditions of sale:-

- 1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.
- 2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.
- 3.—The sale shall commence at the hour of 11 a.m. of the day fixed by previous notification, and shall not be continued after the hour of 5 r.m.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 a.m., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.
  - 4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin,

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,800 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be

re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

- 7.—No tender of money, Bank of Bengal Receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.
- 8.—The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale; and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the 5th Condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.
- 9.—Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.
- 10.—No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.
- 11.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.
- 12.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bond fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.
- 13.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.
- 14.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.
- 15.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenuc:—No. 1 certificate of the Opium advertised for sale; No. 2, report of the examination of such Opium.
- 16.—The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1877-78, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. Ar account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.
- 17.—Any further information respecting weight or quality of the Opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for ship ment.
- 18.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out

of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1879, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 60,000 chests of

Behar ... ... 30,000
Benares ... ... ... 30,000
Total ... 80,000

Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to

period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such Opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such Opium at a sale to be held expressly for the purpose.

### Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high con"tracting parties that at each of the periodical sales of that article there shall be reserved for
"the French Government, and delivered upon requisition duly made by the Agents of His
"Most Christian Majesty, or by the persons duly appointed by them, the number of chests
"so applied for, provided that such supply shall not exceed three hundred chests in each year,
and the price for the same shall be determined by the average rate at which Opium shall
have been sold at every such periodical sale, it being understood that if the quantity of
Opium applied for at any one time shall not be taken on account of the French Government
by the Agents of His Most Christian Majesty within the usual period of delivery, the quan"tity so applied for shall nevertheless be considered as so much in reduction of the three
"hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to
"be addressed to the Governor-General at Calcutta within thirty days after notice of the
"intended sales shall have been published in the Government Gazette."

Letter from His Excellency the Viceroy to His Highness the Amír of Kabul, dated 14th August 1878.

Letter from His Excellency the Viceroy to His Highness the Amír of Kabul, dated 23rd August 1878.

Letter from His Highness the Amír of Kabul to His Excellency the Viceroy, dated 6th October 1878.

Letter from His Highness the Amír of Kabul to His Excellency the Viceroy, dated 6th October 1878.

Letter from His Excellency the Viceroy to His Highness the Amír of Kabul, dated 29th October 1878.

Report by His Excellency Sir N. Chamberlain, G.C.B., G.C.S.I., late Envoy Extraordinary to Kabul, dated 12th October 1878, with appendices.

RESOLUTION.—In September last, His Excellency Lieutenant-General Sir Neville Chamberlain accepted the charge of an urgent and important Mission which the Viceroy of India desired to send to the Amír of Kabul.

2. Sir Neville Chamberlain reached Pesháwar on the 12th September, and placed himself in direct preliminary correspondence with the Amír's officers stationed upon the frontier, to whom it was necessary to give notice of his movements, and from whom their instructions in regard to his passage beyond the British Frontier had to be elicited. The general tenor of this correspondence, with the principal events and circumstances attending the departure of the Mission from Pesháwar, and its withdrawal in consequence of the armed resistance offered at Ali Masjid by the Amír's officers, are described in Sir Neville Chamberlain's subjoined Report of his proceedings. This Report, with appendices containing subsidiary reports by Licutenant-Colonel Jenkins and Major Cavagnari, is now published for general information.

- 3. The communications which passed, early in September, between the Amír's Minister at Kabul and the British officers at Pesháwar, had indicated clearly the Amír's desire to withhold, or to adjourn indefinitely, any decisive expression of his intentions regarding the free passage of the Mission through the Khyber Pass and its safe conduct to Kabul. This free passage and safe conduct His Highness the Amír had been specially asked to give by the Viceroy's letter of the 14th August, which is appended to the present Resolution.
- 4. Under these circumstances, as the departure of the Mission could not be indefinitely delayed, the Commissioner at Pesháwar had been authorized to intimate by a letter to the Amír's Minister, that the object of the Mission which was about to leave Pesháwar for Kabul was friendly, but that a denial of free passage would bring matters to an issue between the two States. And the Amír's officers upon the road to Kabul had received notice of what had been written to the Minister.
- 5. Upon receipt, therefore, by the Government of India of intelligence that Major Cavagnari's demand for passage at Ali Masjid had elicited a determined refusal, leaving no doubt that the Amír's officials were acting under orders to stop the Mission by force, Sir Neville Chamberlain was immediately recalled by His Excellency the Governor-General in Council from Jamrúd to Pesháwar, and the Mission was dissolved. The general instructions from the Government of India, under which Sir Neville Chamberlain assumed charge of the Mission, required him to return if his passage should at any point be resisted by an armed or hostile demonstration on the part of persons responsible to the Kabul Government: and His Excellency the Viceroy and Governor-General in Council entirely approves of the course taken by Sir Neville Chamberlain in adhering to these orders under circumstances which required much judgment and self-control.
- 6. The Viceroy of India, in selecting, as his Envoy to Kabul, Sir Neville Chamberlain—an officer of high rank and distinction, who is personally known to the Amír Sher Ali Khan—desired not only to indicate the special importance of the Mission, but also to signify his wish to treat with marked courtesy the Chief of the Afghán people. But the Amír's refusal to permit the British Envoy to pass his first outpost placed at once beyond doubt his intentions towards the Mission, and has released the British Government from all responsibility for this final failure of their endeavours to preserve friendly relations, and to establish a good understanding, with the present Ruler of Kabul.
- 7. His Excellency the Viceroy and Governor-General in Council fully recognizes the ability and moderation shown by Sir Neville Chamberlain under circumstances involving peculiar difficulty and great responsibility. Sir Neville Chamberlain's selection for a Mission of special political importance has been completely justified; and he has added another to the many services which he has rendered to the Government of India.
- 8. His Excellency in Council also desires to place on record his appreciation of the tact and courage displayed at Ali Masjid by Lieutenant-Colonel Jenkins and Major Cavagnari in a critical and somewhat hazardous position.

9. The Amír's subsequent replies, dated 6th October 1878, to the letters from the Viceroy of India of the 14th and the 23rd August, and the final letter of the Viceroy of India to the Amír, dated 29th October, which has remained unanswered—are also herewith published for general information.

ORDER.—Ordered, that the papers cited in the preamble of the Resolution be accordingly published.

By order, &c.,
A. C. LYALL,
Secretary to the Government of India.

Dated Simla, 14th August 1878.

From—Ilis Excellency the Viceroy and Governor-General of India,
To—Ilis Highness Amir Sher Ali Khan, Wali of Kabul and its Dependencies.

THE authentic intelligence which I have lately received of the course of recent events at Kabul and in the countries bordering on Afghánistán, has rendered it necessary that I should communicate fully and without reserve with Your Highness upon matters of importance which concern the interests of India and of Afghánistán. For this reason, I have considered it expedient to depute a special and confidential British Envoy of high rank, who is known to Your Highness, His Excellency General Sir Neville Bowles Chamberlain, Knight Grand Cross of the Most Honourable Order of the Bath, Knight Grand Commander of the Most Exalted Order of the Star of India, Commander-in-Chief of the Madras Army, to visit Your Highness immediately at Kabul, in order that he may converse personally with Your Highness regarding these urgent affairs. It appears certain that they can be best arranged for the welfare and tranquillity of both States, and for the preservation of friendship between the two Governments, by a full and frank statement of the present position. This letter is therefore sent in advance to Your Highness, by the hand of Nawáb Ghulám Hassan Khan, C.S.I., a faithful and honoured Sardár of my Government, who will explain all necessary details as to the time and manner of the Envoy's visit. It is asked that Your Highness may be pleased to issue commands to your Sardárs and to all other authorities in Afghánistán upon the route between Peshawar and Kabul, that they shall make, without any delay, whatever arrangements are necessary and proper for effectively securing to my Envoy, the representative of a friendly Power, due safe conduct and suitable accommodation according to his dignity, while passing with his retinue through the dominions of Your Highness.

I beg to express the high consideration I entertain for Your Highness.

Letter to His Highness the Amir of Kabul, dated Simla, 23rd August 1878.

After the despatch from Simla of my letter dated 14th August 1878, which Nawáb Ghulám Hassan Khan will deliver with this letter to Your Highness, I received from Pesháwar the melancholy news, that Your Highness has suffered a great affliction in the untimely death of Sardár Abdulla Ján, the Heir-Apparent to Kabul and its dependencies. I desire to express to Your Highness personally the sincere regret which this intelligence has caused to me; but life and death are in the hands of God, and resignation to His will is unavoidable. In consequence of this calamity, I have directed my Envoy to postpone for a short time his departure, in order that Your Highness may not be troubled by any public business, however important and urgent, until the usual period of mourning shall have elapsed.

Letter from Major W. G. WATERFIELD, Commissioner of Peshawar, to the Mustaufi, dated 7th September 1878, referred to in para. 4 of the Resolution.

AFTER COMPLIMENTS.—I write this friendly letter to inform you that the 16th or 17th September has been fixed for the departure of a Mission of high rank from the British Government to Kabul, and that the Mission will start whether Náwab Ghulám Hassan shall, or shall not, by that time have had the honour of waiting on His Highness the Amír. The object for which the Mission is deputed is friendly, and the refusal of free passage to it, or interruption or injury to its friendly progress, will be regarded as an act of hostility. I am to explain 'that the Mission will not in any case enter the capital of Kabul before the expiry of the month of Ramzan. In conclusion, may you keep well!

Translation of letter from Amir Sher Ali Khan, of Kabul, to His Excellency the Viceroy and Governor-General of India, dated 8th Shawal (6th October).

After the usual complimentary beginning.—Be it known to Your Excellency (Janáb) that Your Excellency's friendly letter, which was sent by the hands of the highly-honoured Nawáb Ghulám Hassan Khan, and which contained the news of the deputation of a friendly Mission, namely, a Mission from the British Government, has been perused by me; and on perusal I have fully informed myself of its contents. But the above-named Nawáb had not yet been honoured with an interview, and Your Excellency's friendly letter had not yet been seen by me, when a letter addressed by Major Waterfield, Commissioner of Pesháwar, to Mirza Habíbulla Khan, an official of this God-granted Government, having arrived here, was perused by this supplicant before the throne of God. And great surprise and astonishment was caused by the writing of the officer above mentioned—that is, the Commissioner. What can

be the result, meaning, and advantage of such a blustering\* communication to an ally and friend, and of advancing by force a friendly Mission in this manner?

Subsequently three more letters from the same officer, in the same tone and style, to the address of the officials of this God-granted Government, were seen. Moreover, in the course of a few days, several other letters, which were received from that direction, were seen. These were not free from harsh and rough words and expressions, which are inconsistent with the forms of courtesy and civility, and contrary to the mode of friendship and sympathy.

In consequence of the attack of grief and affliction which has befallen me by the decree of God, great distraction has seized the mind of this supplicant at God's threshold. The trusted officers of the British Government, therefore, ought to have observed patience, and to have stayed, at such a time; and this would have been the most commendable and appropriate course. Your Excellency should be pleased to have regard to this harsh (style of) address and provocation, as well as to the altereation with such anger with my officials. How inconsistent is this with the subline way of friendship and alliance? In any case the officials of this God-granted Government, notwithstanding the threatening communications of the officials of the British Government, which communications are still in the possession of the officers of this Government, will not evince any hostility or opposition to the British Government. Moreover, they do not entertain any hostile or antagonistic feelings toward any Government whatever. But should any Government entertain without cause any hostile and inimical feelings toward this God-granted Government, I commit all my affairs to the merciful God, + Literally "the best Wakeel."

upon whose will and intention all matters depend. He alone suffices for us, and He is the best to be trusted.

The highly-honoured Nawab Ghulam Hassan Khan, who is the bearer of this friendly letter, has, in accordance with the instructions received from the officers of the British Government, asked leave to return, and the requisite permission has been granted. Translation of letter from Amer Sher Ali Khan, to His Excellency the Viceroy and Governor-General of India, dated 8th Shawal (6th October).

A. C.—Be it known to Your Excellency, that Your Excellency's most friendly letter, expressing deep sorrow and regret at the death of my beloved son, Sardár Abdulla Ján, the Heir-Apparent to the God-granted Government of Afghánistán, which Your Excellency sent by the hands of Nawáb Ghulám Hassan, has been perused by me. The sorrow and regret which Your Excellency, in conformity with the forms of friendship and amity, has expressed regarding this mournful event, which has taken place by decree of God, is indeed according to the rules of friendship and concord, and to the behaviour of friends to friends in affliction. But as no one can resist or escape the Divine decree, it is fitting and appropriate under all circumstances to submit and resign one's self to the will of God. What more of friendliness can be written?

#### Dated 29th October 1878.

From—His Excellency the Viceroy and Governor-General of India, To-His Highness Amir Sher Ali Khan, of Kabul.

- A. C.—I have received and read the letters which Your Highness has sent to me by the hands of my Sardár Ghulám Hassan Khan.
- 2. It will be in the recollection of Your Highness that, immediately on my arrival in India, I proposed to send you a friendly Mission for the purpose of assuring you of the good-will of the British Government, and of removing those past misunderstandings to which Your Highness has frequently alluded.
- 3. After leaving this proposal long unanswered, Your Highness rejected it, on the ground that you could not answer for the safety of any European Envoy in your country, and that the reception of a British Mission might afford Russia a pretext for forcing Your Highness to receive a Russian Mission.
- 4. Although such a refusal to receive a friendly Mission was contrary to the practice of allied States, yet the British Government, unwilling to embarrass Your Highness, accepted your excuses.
- 5. Nevertheless Your Highness has now received a Russian Envoy at your capital at a time when a war was believed to be imminent in which England and Russia would have been arrayed on opposite sides; thereby not only acting in contradiction to the reasons asserted by Your Highness for not receiving a British Mission, but giving to your conduct the appearance of being actuated by motives inimical to the British Government.
- 6. In these circumstances, the British Government, remembering its former friendship with the father of Your Highness, and still desiring to maintain with you amicable relations, determined to send, after such delay as the domestic affliction you had suffered rendered fit, a Mission to Your Highness under the charge of Sir Neville Chamberlain, a trusted and distinguished Officer of the Government, who is personally known to you. The escort attached to his Mission, not exceeding two hundred men, was much less numerous than that which accompanied Your Highness into British territory, and was not more than was necessary for the dignity of my Envoy. Such Missions are customary between friendly neighbouring States, and are never refused except when hostility is intended. I despatched by a trusted messenger a letter informing Your Highness that the Mission accredited to Your Highness was of a friendly character, that its business was urgent, and that it must proceed without delay.
- 7. Nevertheless, Your Highness, having received my letter, did not hesitate to instruct your authorities on the frontier to repel the Mission by force. For this act of enmity and indignity to the Empress of India in the

person of Her Envoy, the letter from Your Highness affords no explanation or apology, nor does it contain any answer to my proposal for a full and frank understanding between our two Governments.

- 8. In consequence of this hostile action on the part of Your Highness, I have assembled Her Majesty's forces on your frontier. But I desire to give Your Highness a last opportunity of averting the calamities of war. For this, it is necessary that a full and suitable apology be offered by Your Highness in writing, and tendered on British territory by an officer of sufficient rank.
- 9. Furthermore, as it has been found impossible to maintain satisfactory relations between the two States unless the British Government is adequately represented in Afghánistán, it will be necessary that Your Highness should consent to receive a permanent British Mission within your territory. It is further essential that Your Highness should undertake that no injury shall be done by you to the tribes who acted as guides to my Mission, and that reparation shall be made for any damage they have suffered from you; and if any injury be done by Your Highness to them, the British Government will at once take steps to protect them. Unless these conditions are accepted fully and plainly by Your Highness, and your acceptance received by me not later than the 20th November, I shall be compelled to consider your intentions as hostile, and to treat you as a declared enemy of the British Government.

I beg to express the high consideration I entertain for Your Highness.

Dated Simla, 12th October 1878.

From-IIIs Excellency Sir Neville Chamberlain, G.C.B., G.C.S.I., late Entroy Extraordinary to Kabul,

To-A. C. LYALL, Esq., Secretary to the Government of India, Foreign Department.

My several confidential telegrams and letters which I despatched from Pesháwar, placed His Excellency the Viceroy in early possession of all that was taking place; but it now remains for me to submit, for the information of the Government of India, a more formal and connected report of the proceedings of the Mission. I regret that indisposition since my return to Simla has prevented my discharging this duty at an earlier date.

- 2. On the 7th September you communicated to me the instructions of His Excellency the Viceroy and Governor-General in Council, and on the following morning I left Simla.
- 3. I reached Pesháwar on the evening of the 12th, and at once placed myself in communication with Major Waterfield, the Commissioner, and also with Major Canagnari, who was then specially charged with the conduct of our intercourse with Kabul and with the Afridi tribes.
- 4. The position of affairs at that time was as follows:—The Mission was directed to leave Pesháwar on the 16th, or as soon after as possible, so as to reach Kabul about the end of the month, by which time the full period of mourning and of the Fast (Ramzán) would have ended. This was also the time named by the Minister as the period when His Highness the Amír of Kabul would be able to attend to State affairs. Major Cavagnari, in obedience to instructions previously communicated to him by His Excellency the Viceroy, was then in course of arranging with the independent Khaibari tribes for the safe conduct of the Mission through the Pass as far as Ali Masjid, at which place it would come into contact with, and under the protection of, the officers of His Highness the Amír of Kabul. This was, in fact, to follow the course adopted in the case of the Nawáb Ghulám Hassan Khan, who had been pre-

PART IA.]

viously sent to Kabul, to convey to the Amír a letter of condolence from His Excellency the Viceroy on the loss of the Heir-Apparent, and also a letter to announce the coming of the Mission.

- 5. Arrangements with the independent tribes always take time; but all seemed to be going on satisfactorily, when, on the morning of the 14th, intimation was brought to Major Cavagnari that Faiz Muhammad Khan, the Commandant of the Amír's troops stationed at Ali Masjid, had sent in to Pesháwar to summon back to the Pass all the Khaibari Maliks, or headmen, who were then in course of negotiating with Major Cavagnari. The Maliks applied to Major Cavagnari to know what course they should adopt, as they felt that, if they disobeyed, they would risk the loss of the allowance they were then in receipt of from the Amír.
- 6. This action on the part of the Amír's officials was most discourteous, if not hostile; for the occupation of Ali Masjid by the Amír's troops had been of no long duration, whilst indeed it could at no time have been carried out had the measure been objected to by the Government of India. It was, however, impossible that such occupation could, under any circumstances, be accepted by the British Government as being allowed to interfere with, or to become a bar to, our right to hold independent relations with these tribes, or to interfere in any manner with our previously existing relations with them.
- 7. The Afridi mountains border the Peshawar Valley for many miles. The trade of the tribes is also exclusively with that valley and with our subjects. We have, therefore, continual intercourse and dealings with each other; and, in the main, we live together in friendly relations.
- 8. Whilst it was quite beyond reason to accept the position now assumed by Faiz Muhammad Khan, still, so great was the desire not to give the Amír any plausible ground of complaint, that the course was adopted of addressing

  \* Faiz Muhammad a courteous and friendly letter,\* explaining to him the object of the Mission, and our motive for arranging with the Pass men for its safe conduct as far as Ali Masjid.
- 9. The purport of this letter was explained by Major Cavagnari to the Maliks, who fully understood and approved of its conciliatory nature, and expressed themselves as willing to abide by the result. They were further told that up to that time it was considered that their previous arrangements with the Amír were held to be in force; that nothing had occurred to put an end to them; but that if the Amír, because of their relations with us, stopped their allowance, it would then be continued to them by the British Government.
- 10. I, at this period, wrote to His Excellency the Viceroy that I was not sanguine of receiving a satisfactory passwer, for I felt that a man in a subordinate position like that held by Fold Muhammad, would never dare assume the responsibility of acting as he had done without orders, and that, therefore, he had most probably only carried out the instructions he had received from Kabul. However, the object of the Mission was to promote peace, and to bring about, if it was possible, a return to friendly and close relations with the Amír, so that I still urged that all reasonable delay should be overlooked, so as to give Faiz Muhammad time to refer for orders to his nearest superior—the Mír Akhor—should he consider it desirable to do so—rather than to seem to assume the position of forcing on matters to a decisive issue sooner than was absolutely indispensable.
- 11. So far from Faiz Muhammad Khau feeling any embarrassment in replying to my letter, he did so at once, and I received his answert late on the afternoon of the 16th. There could be no room for misunderstanding his meaning. He was a soldier in command of an out-post;

had no orders to allow the Mission to pass, and would stop it by force of arms if need be. The position thus assumed was, in fact, to imply that the relations then existing between the Amír and the British Government were tantamount to a state of war; and thus all doubt was removed as to the nature of the orders given to Faiz Muhammad, or the source from which they emanated. Just one ray of hope might, however, be extracted from his last paragraph. The Mír Akhor was, he said, just about to arrive at Ali Masjid from Dhakka: he might be the bearer of fresh instructions from Kabul; and he recommended me to delay the advance of the Mission.

- 12. My first impulse was to await the arrival of the Mír Akhor at Ali Masjid, and then to address him direct; but as time passed on, I felt that if the Mír Akhor's visit to Ali Masjid was of a friendly character, it would have been his first duty to make this known to me, whilst to repeat to him the assurances already made to Faiz Muhammad Khan, would be to risk placing my Government in the position of seeming to plead for privileges which belonged to it as of right.
- 13. News of the Mir Akhor's arrival duly reached me; and it was reported that his object, instead of being of a friendly character, was to see that Faiz Muhammad did not flinch from the execution of his orders.
- 14. It was now clear to me that all hopes of a peaceful advance of the Mission—except possibly upon conditions to be dictated by the Amír—were at an end; and that it only remained to carry out the orders of my Government in bringing to a decided issue whether the Amír's troops would, or would not, offer hostile opposition to the advance of the Mission.
- 15. If there had been any room for previous doubt as to the intentions and acts of the Amír's officials stationed at Ali Masjid, the mask had now been completely thrown aside; for it was well authenticated that both Faiz Muhammad Khan and the Mír Akhor were not only doing everything in their power to prevent the Afridis located nearest to us from giving us a passage, but were endeavouring to induce those sections of the tribe located beyond Ali Masjid, and who were therefore more under their immediate control, to intervene between us and their clausmen, in order to thwart our negotiations with them, and to make them, under any circumstances, close the Pass to the advance of the Mission.
- 16. If our negotiations, which had for their object merely to enable us to have a right of way as far as Ali Masjid, were to be continued with any chance of success—or if, indeed, our right to contract engagements at all with the independent Pass tribes was to be upheld—there was now nothing left for it but for us also to throw off the reserve which, out of consideration for the Amír, had already hampered us so much in coming to terms with the Afrídís. Accordingly, with the sanction of His Excellency the Viceroy, the Afrídí Maliks were told (on the 19th) that we were ready to deal with them independently of all other considerations; that we repeated the promise of indemnifying them for any loss they might sustain from the Amír withdrawing his allowance; and that we were, in fact, prepared, if necessary, to take over the whole Pass arrangements into our own hands for the future, and to pay them the Pass-money out of the British Treasury.
- 17. The day following (the 20th), the Maliks announced the assent of their tribesmen to escort the Mission to Ali Masjid, or to any nearer point until we should come into contact with the Amír's officials; and that they would also, if necessary, give it safe conduct back to Jamrúd. They asked for the delay of one day to enable them to make their arrangements for the security of the Pass.
- 18. Whilst the events above narrated were taking place, letters arrived from the Nawab. These announced his arrival at Kabul, and subsequent

interviews with the Amír, and with His Highness's Ministers. interviews the Nawab was told of the bad humour of the Amír, because of the grievances of which His Highness considered himself to be the victim at the hands of the Government of India, though the Amir admitted that we also might have complaints against him. The Nawab was also told that the Russian Mission had come with the sanction of the Amír, and that it would be honourably sent away after the Eed, and that, as to the English Mission, it should not be pressed upon him inopportunely; but that His Highness claimed the right to have time to consider the matter as to its reception, and that if, after reflection, its reception should prove agreeable to him, he would then fix the time for its arrival, and make suitable arrangements to receive it honourably. The Nawah was made to repeat these communications in his letters; and was further made to express the Minister's hope that the answers to his letters would, God willing, bring about a reconciliation between the two Governments; but that, if the British Mission started on the 18th, or without the previous sanction of the Amír, matters would assume a different aspect.

- 19. With reference to the above, I feel called upon to say that the Nawáb was merely the bearer of the Viceroy's two letters to the Amír, and was charged to announce verbally and formally to His Highness the despatch and advent of the Mission. The Nawáb had no authority otherwise to represent the British Government. He was invested with no diplomatic powers; and it was altogether beyond his province to enter into communications with the Kabul Government on State affairs. His letters, as a matter of fact, merely echoed the views or wishes—or more strictly speaking, the mere words—of the Amír; and it was manifestly no part of my duty to send answers to such communications.
- 20. Whatever may have been the nature of the relations entered into between the Amír and the Russian Mission-or whether His Highness's mind was made up, or not, as to any definite course of future policy—it is, I consider, beyond question that his object was to procrastinate, and to defer as long as possible being forced into giving any definite answer to the Viceroy's letters; and further, to prevent, if possible, the passage of the Mission through the few miles of the Khaibar which separate Jamrud from Ali Masjid. His Highness hoped thereby to prevent the officers of the two Governments from coming into personal contact; and his mind was made up that, if they did so before he accorded his assent for the onward passage of the Mission, it should be stopped, and stopped, if need be, by force of arms and by bloodshed. The acts of His Highness's officers at Ali Masjid, His Highness's own words to the Nawab, and the words of his Minister to the same person all bore testimony to this intention. It was tantamount to saying that if the British Government would renounce all right to independence of action, and leave it to the Amír to decide whether the Mission should be received or not, and if to be received, to leave it to him to decide the precise time, that then, at his pleasure, he would give an answer, when, if it was favourable to us, he would depute a suitable person to receive the Mission, and treat it honourably.
- 21. Most assuredly no Asiatic Prince has ever thus treated the British Government unless prepared to go to war: and equally certain is it that the Amír would never have thus dealt by the Russians, unless ready to trust to the same arbitrament. In fact, we have it in his own words to the Nawáb, that he invited the Russian Mission—and be it remembered it came at its own appointed time—not deeming it advisable to break with the Czar.
- 22. On the 21st, the Mission moved to Jamrúd and encamped there for the day. Major Cavagnari was deputed to ride on to Ali Masjid with a small escort, to demand from the Amír's officials permission for the advance of the

Mission. A report of his interview with Faiz Muhammad Khan is annexed.\* It announced the fixed in-

tention of the Amír's authorities to oppose the passage of the Mission; and it is evident that, but for the tact displayed by Major Cavagnari at one period of the interview, even the lives of the British Officers and of their small escort were endangered.

- 23. This result having been reported by telegraph to the Viceroy, I, early on the morning of the 22nd, received His Excellency's orders to return with the Mission to Pesháwar. Before doing so, I addressed a letter\* to Faiz Muhammad Khan at Ali Masjid, informing him of the withdrawal of the Mission, and that his act would be viewed as being that of the Amír. I also sent a letter\* to the Nawáb, directing him to immediately take leave of the Amír, and to return forthwith to Pesháwar.
- 24. As I was about to mount my horse to leave camp, I saw the friendly Afrídí Maliks. I told thêm they had honourably discharged their engagement with us, and that their service was considered the same as if they had escorted our last baggage-animal safe under the walls of Ali Masjid. They appeared pleased at this recognition of their services; but, as my remarks drew from some of them the question as to what they should do if the Amír visited them with his displeasure because of their engagement with us, I replied without hesitation that we should take them under our protection, and would defend them to the last. This promise subsequently received the full approval and confirmation of His Excellency the Viceroy.
- 25. The Mission had failed—it had been turned back at the threshold of the Amír's dominions with an affront delivered before all the world. It failed, because of the Amír's indifference to any indignity imposed by him on the British Government; whilst he himself would not tolerate anything which could be strained to bear the appearance of even a slight to his kingly privileges.
- 26. It seems to me that a reasonable way of judging of our position is to suppose the conditions inverted. Let it be supposed that the Amír lal considered that his interests and his honour called for the immediate despatch of an Envoy to the Government of India to discuss pressing differences in a friendly manner; that he had deputed a confidential Agent of rank to the Viceroy to announce the approaching departure and early arrival of a Mission; that the Government of India, thereupon, had sent no direct answer to the Amír, but had endeavoured to bar the passage of the Mission through neighbouring friendly tribes; and that, on its succeeding in reaching our most distant outpost, it had been met and turned back by the threat of a resort to force if it ventured to continue on its created. There can, I think, be no room for two opinions, unless the relations between neighbouring States are to relapse into the worst form of barbarism, and to be controlled only by brute instincts and by brute force.
- 27. It may be said with certainty that a Mission despatched under such conditions would have met with no success had it been allowed to advance, and that it was better to fail at starting through a direct insult, than to reach Kabul to arrive at no result.
- 28. Before concluding this report, I desire to correct a misapprehension which has prevailed as to the strength of the military escort attached to the Mission. It consisted of 150 cavalry and 50 infantry, or a total of 200 men; and, considering the description of country to be traversed, and the habits of the tribes to be passed through, this number was not in excess of requirements.
- 29. My Mission was not of the nature of a surprise, and to be conducted secretly and expeditiously: it had therefore, according to custom, to be accompanied by a proportionate amount of camp-equipage, baggage, and transport animals; whilst in addition to our own requirements was added the charge of valuable gifts to be presented to the Amír. I had, in fact, to go in the most

open and formal manner, to represent the dignity of my Sovereign and the claims of my country; and to do this suitably, a certain amount of outward state was customery and processory.

state was customary and necessary.

- 30. No exception is ever taken by this Government to the amount of escort which accompanies any foreign Prince visiting India; and whenever the Amír of Kabul, or one of the Princes of that house, has come to India, he has invariably been accompanied by an escort far in excess of that which I was to take; although, be it added, any individual of any nationality may traverse the length and breadth of India, unarmed, with perfect security and without let or hindrance.
- 31. Finally, I would observe that so great was my desire to prevent, if possible, any false rumours of armed preparations preceding me to Kabul, that I even requested the Brigadier-General commanding the Pesháwar garrison to suspend the movement of troops ordinarily carried out at that period for the preservation of the men's health, consequent upon the setting-in of the sickly season.

### Dated Peshawar, 15th September 1878.

From-His Excellency SIR NEVILLE CHAMBERLAIN, G.C.B., G.C.S.I.,

To-FAIR MUHAMMAD KHAN, Commandant of His Highness the Amér's Troops at Ali Masjid.

A. C.—I write to inform you that, by command of His Excellency the Viceroy and Governor General of India, a friendly Mission of British officers, with a suitable escort, is about to proceed to Kabul through the Khaibar Pass, and intimation of the despatch of this Mission has been duly communicated to His Highness the Amír by the hand of the Nawáh Ghulám Hassan Khan.

I hear that an official from Kabul has recently visited you at Ali Masjid, and he has doubtless instructed you in accordance with His Highness the Amír's commands. As, however, information has now been received that you have summoned from Pesháwar the Khaibari headmen with whom we were making arrangements for the safe conduct of the British Mission through the Khaibar Pass, I therefore write to enquire from you whether, in accordance with the instructions you have received, you are prepared to guarantee the safety of the British Mission to Dhakka, or not; and I request that a clear reply to this enquiry may be speedily communicated by the hand of the bearer of this letter, as I cannot delay my departure from Pesháwar. It is well known that the Khaibar tribes are in receipt of allowances from the Kabul Government, and also, like other independent tribes on this frontier, have relations with the British Government. It may be well to let you know

that, when the present negotiations were opened with the Khaibar tribes, it was solely with the object of arranging with them for the safe conduct of the British Mission through the Khaibar Pass, in the same manner as was done in regard to the despatch of our Agent, the Nawáb Ghulam Hassan Khan; and the tribes were given clearly to understand that these negotiations were in no way intended to prejudice their relations with His Highness the Amír, as it was well known that the object of the British Mission was of a friendly character to His Highness the Amír and the people of Afghánistán.

I trust that, in accordance with the instructions you have received from His Highness the Amír, your reply to this letter will be satisfactory, and that it will contain the required assurances that the Mission will be safely conducted to Dhakka. I shall expect to receive your reply to this letter not later than the 18th instant, so please understand that the matter is most urgent. But at the same time, it is my duty to inform you, in a frank and friendly manner, that if your answer is not what I trust it will be, or if you delay to send an early reply, I shall have no alternative but to make whatever arrangements may seem to me best for carrying out the instructions I have received from my own. Government.

Pranslation of a letter from Faiz Muhammad Khan, to His Excellency Sir Nevilla Chamberlain (letter not dated).

A. C.—Your friendly letter which you sent me by the hands of Arháb Fatek Muhammad Khan has reached me to-day, the 17th Ramzán (16th September).

I was gratified by the perusal thereof, and feel obliged.

Kind (Sir), you mention therein that you have been ordered to proceed on a friendly Mission to Kabul, and that you are negotiating with the Afridis for an escort to Dhakka. But the Afridis are a faithless (literally, "fearless") and covetous race. No confidence can be reposed in their engagements. Their headmen and chiefs are all with us, and in receipt of allowances from His Highness the Amír. The letter which my kind friend Major Waterfield, Commissioner of Peshawar, wrote on the subject of the advance of a friendly Mission to Kabul, Thave forwarded by the hands of my servant to the Mir Akhor, our superior and chief at Jelálábád; but as yet we have received no orders from Kabul or Jelálábád which we might communicate to you, whether to let the British Mission to proceed or to stop it. When we hear that the Amír has no objection (to your going), we shall do you good service, and escort you to Dhakka, whether there be any Afridis or not; for the friendship between you and the late Amír Sáhib is clearer than the sun. When we receive orders from the Capital (Kabal) to invite you, we shall be bound to serve you well. But as yet we have received no orders to let you go. We are servants to carry out the orders of (our master). Should you come without His Highness's permission or orders, it will lead to a collision between us and the Afridis on one side and you on the other; all hopes of friendship will be lost.

While I was writing this letter, a man arrived from Dhakka with news that the Mír Akhor would shortly be here with two sowárs. As he is a great man, he may have brought some orders which he, by way of friendship, will communicate to you. He will also learn your views ("jawáb-o-sowál"). What I have stated above is all that I have to communicate. Further, you are at liberty to do what you like. Whether you stop at Pesháwar until the Mír Akhor arrives, and has a friendly communication with you, or you proceed at once by force; you can do what you choose.

#### No. 3.

#### Dated 22nd September 1878.

From-Major N. Cavagnari, C. S. I., on Special Duly, Kabul Mission,

To-His Excellency General Sir Neville Chamberlain, G. C. B., G. C. S. I., Envoy Extraordinary, Kabul Mission.

In obedience to Your Excellency's instructions, I left Pesháwar early yesterday morning, with the view to proceeding to the fort of Ali Masjid in the Khaibar Pass, in order to ascertain from the Amír's officials in charge of this post, whether they would permit the British Mission to pass through the Khaibar, and be responsible for its safety and proper treatment during its journey to Kabul or not.

- 2. On arrival at Jamrúd, where the camp of the Mission was pitched, I communicated with Colonel Jenkins, Commanding the escort, and it was arranged that he and Captain W. Battye, with a small escort of cavalry, should accompany me on my mission.
- 3. Negotiations had been concluded on the previous day with the Khaibar headmen present at Pesháwar to escort the British Mission from Jamrúd to Ali Masjid, or to any other point within the Khaibar at which the Amír's officials might be stationed, and back to the British frontier, if it was necessary to return. I therefore sent off the Khaibarís, who had preceded me to the camp at Jamrúd, to make arrangements through the Pass; and I deputed messengers to Ali Masjid to inform the Mír Akhor and Faiz Muhammad Khan, the Commandant of the fort, that I, with two other British Officers, were leaving Jamrúd for Ali Masjid, in order to have a personal interview with them.
- 4. After waiting a sufficient time at Jamrúd to enable the Khaibarís and my messengers to get well ahead, I left camp and entered the Pass. On reaching Mackeson's bridge, I was met by one of my messengers, who was returning from Ali Masjid, and who informed me that Faiz Muhammad Khan had desired him to return and request the officers to halt at whatever place the messenger should meet them, and that he would come to interview them. As this was palpably an attempt to gain time—a line of conduct the Amír's officials are specially proficient in—and as it was my object to get as near Ali Masjid as possible, so that there should be no question as to the responsibility of the Amír's officials for any obstruction I might meet with, I directed the messenger to return and inform the Khan that I intended to proceed onward until I met him.
- 5. When we reached the heights above Iala China, which are about a mile from Ali Masjid and within sight of the fort, some of the Khaibar headmen met us, and informed me that the ridges in front of us, which completely commanded the remainder of the road to Ali Masjid, were held by the Amír's levies (Khasadar), who would not let our party pass. We also observed large numbers of men descending from Ali Masjid to strengthen these positions, indicating beyond doubt that there was every intention to oppose us if we attempted to proceed. As these pickets were within the limits of that portion of the Pass the Khaibarís who accompanied me were responsible for, I sent a party of them to parley with the levies; but the latter threatened to fire if any one approached. I therefore sent another messenger to Faiz Muhammad Khan, inviting him to come and meet me, or to arrange for my safe passage to Ali Masjid, as his men held command of the road and refused to allow my party to advance. As some time passed and no definite answer was received, I sent one of the Kalil Khans\* who had accompanied me,

\*Afridi Khan of Mulazai. to ascertain the position of affairs; but shortly afterwards I received a report that the Khan had been stopped and was not permitted to advance.

- 6. I then prepared to write a letter to the address of the Mír Akhor and Faiz Muhammad Khan, informing them that I had been stopped by the advanced pickets of the Ali Masjid post under their command, but that I intended to proceed until fired upon, and that, if this occurred, the responsibility would be theirs, and that the act would be held to indicate that as\* the Amír of Kabul's representatives absolutely declined to allow the British Mission to advance. I intended to let a reasonable interval pass, and then, if no satisfactory reply was received, Colonel Jenkins and I, with a few men, were to advance towards Ali Masjid until fired upon, when we would have retired under cover of the remainder of the escort which was to be left with Captain Battye on the heights where we had halted.
- 7. Before this letter was ready for despatch, a message was brought me from Faiz Muhammad Khan to the effect that he was about to come to a ruined tower in the bed of the stream just below where we were halted, and that, on his arrival there, he would send for myself and three others and would hear anything we had to communicate.
- 8. As it appeared to me that it would have been an indignity to have remained and waited until Faiz Muhammad Khan should send for me, as well as to be dietated to as to the number of men that should accompany me (it would have been different had I been permitted to proceed with my escort to the fort of Ali Masjid, when, of course, I would only have entered the post with as many men as the officers in command chose to admit), I determined to advance at once with as many men as I thought fit to take, and endeavour to meet Faiz Muhammad Khan before he should reach the spot named by him.
  - 9. Accordingly, Colonel Jenkins, myself, and one or two of the Guide
    Nawáb Babádur Sher Khan.
    Arbáb Sarfaraz Khan.
    Arbáb Fateh Muhammad Khan.
    Afráli Khan.
    Munshi Pakhtiár Khan.
    Munshi Pakhtiár Khan.
    Abbás Khan, and several others.

    Cavalry, with some of the Khaibar headmen and the Native gentlemen marginally noted, descended without delay into the bed of the stream, and advanced to meet Faiz Muhammad Khan. A party of Afrádís, headed by Abdulla Núr, a Kuki Khel

Afridi Malik in receipt of special allowances from the Amír, attempted to stop me, saying that only four persons should advance. I rode past him, telling him that my mission concerned the Kabul officials, and that I desired to have no discussion with the Afridis. The Malik made no further opposition—in fact, he knew that most of his tribe were with me, and he himself was only acting a part to save his allowances.

- 10. After meeting Faiz Muhammad Khan and exchanging salutations, I pointed to what I considered a suitable place for an interview—it was a water-mill with some tree; close by it, and on the opposite side of the stream to the spot originally named for the place of meeting. Faiz Muhammad Khan was accompanied by the Naib, or Deputy, of the Mír Akhor, a considerable number of the Ali Masjid levies, and some of the Afridí headmen of the upper villages of the Khaibar, and their respective followers.
- 11. When we had seated ourselves, I commenced the interview by pointing out to Faiz Muhammad Khan that he and myself were servants of our respective Governments, and had met to earry out whatever orders we had received; so that, whatever the result of our meeting might be, there need be nothing personal between him and myself. After the Khan had fully reciprocated this friendly sentiment, I proceeded to state that he was well aware that the British Government had decided on sending a friendly Mission of European British officers, accompanied by a suitable escort, to His Highness the Amír of Kabul; that the Mission was encamped at Jamrúd, and intended to proceed through the Khaibar on the following day; that, in consequence of various reports received, I had been deputed by my Government to ascertain from the Amír's officials at Ali Masjid whether they had received instructions, or were prepared to guarantee the safe passage and

proper treatment of the Mission during its journey to Kabul, or not; and I hoped that, if there was any latitude for independent action in the orders he had received from Kabul, he would do all he could towards an amicable adjustment of affairs between the two Governments. Faiz Muhammad Khan replied that he had every desire to act in a friendly manner, and that, actuated by such motives, he had allowed Nawáb Ghulám Hassan Khan to proceed without any detention, but that his action in this respect had met with disapproval from the Kabul Durbár; that if he had not been friendly disposed, he would not have consented to the present interview, or have restrained his levies from firing on my party; that he had received no orders from the Amír to let the Mission pass his post; and that, without such orders, he could not let it proceed; but that, if the Mission would only wait for a few days, he would communicate with Kabul and ask for orders. I replied that my orders were distinct, and that I was instructed to say that the Mission would advance on the next day, unless I received a reply from the Amír's officials that its advance would be opposed; and I begged the Khan not to take upon himself such a heavy responsibility as to say he would oppose the advance of the British Mission, unless his orders were clear and distinct in the matter; for whatever his reply was, it would be considered as that of the Amír of Kabul. Faiz Muhammad Khan replied that he was only a sentry, and bad no regular troops, but only a few levies; but that such as his orders were, he would carry out to the best of his ability, and that, unless he received orders from Kabul, he could not let the Mission pass his post. I rejoined, to this, that it did not signify what the actual strength of his post was, as the Mission was a friendly one and bent on peaceful objects, and I again urged him not to take such a grave responsibility if he had any option in the matter. He replied that it was a very heavy matter for him to decide upon; as, on the one hand, he could not act without orders from Kabul, while, on the other hand, he was told that his reply would be considered as that of the Amir of Kabul. He then began with much warmth to question the friendly intention of the British Government by stating that it was not a sign of friendship for the British authorities to negotiate direct with the Khaibar tribes, who were subjects of the Amír of Kabul, and in receipt of allowances from that ruler, and induce them to escort Nawáb Ghulám Hassan, and also some British officers (meaning my party) without the Amír's permission. I replied that there was no cause for dissatisfaction in what had been done in the matter. It was never anticipated that a friendly Mission would have met with any opposition, as such Missions are never opposed in any civilized country; and that the arrangements made with the Afridis were merely to induce them to undertake the safe conduct ("badragga") of a peaceably-disposed Mission, which every independent Pathán tribe has a right to undertake in its own country. Faiz Muhammad Khan continued with increasing warmth to allude to the subject, and there was an uneasy sort of murmuring commencing amongst the people around, which appeared to me (and, as 1 afterwards ascertained, the same idea occurred to Colonel Jenkins and to some of the Native gentlemen with me) to indicate that, if the discussion was any longer prolonged, the movement alluded to might assume a more decided form, which might possibly be one which our small party could not deal with in a suitable manner. I therefore interrupted the Khan by saying that the subject was one which it did not behove subordinates to discuss, and that if the Amír considered what had been done as a grievance, I had no doubt that the British Government would give I then asked the Khan for the last time if 1 correctly him a suitable answer. understood him to say that, if the British Mission advanced as intended on the following day, he would oppose it by force; and he replied that such would be the case. I then got up and shook Faiz Muhammad Khan by the hand, and assured him that I had no unfriendly feelings against him personally, and that I hoped to meet him again on some future occasion. I then turned to the Native gentlemen who were with me, and asked them if they did not consider a clear and decisive answer had been given; and they replied that it was so.

- 12. In fact, there was scarcely any necessity for an interview to settle this point, as the hostile preparations made by the Ali Masjid garrison on seeing my party approach, notwithstanding that my object in coming, and the small strength of my escort, had been communicated to, and received by, the Commandant of the fort, and the Amír's representative, the Mír Akhor, would ordinarily have been quite sufficient to indicate pre-determined affront and insult; and I believe that, with any other of the Amír's officials but Faiz Muhammad Khan, who, from first to last, has behaved in a most courteous manner, and very favourably impressed both Colonel Jenkins and myself, a collision of some kind would have taken place. The general belief is that Faiz Muhammad Khan was acting under the direct orders of the Mir Akhor, who had been purposely deputed by the Amír to supervise Faiz Muhammad Khan's management of Khaibar affairs, and to see that, without orders to the contrary, he checked the advance of the British Mission. I have no doubt that Faiz Muhammad Khan softened down a great deal of the insult that was intended, though, short of actual collision, it is impossible to imagine what more could be done to effect the Amír's object.
- 13. The Khaibaris, as far as their conduct was tested, acted faithfully to their engagements, and but for their assistance, we should not have been able to bring matters to a definite issue with the Amír's officials without a great deal of trouble, expense, and delay.
- 14. The interview with Faiz Muhammad Khan being concluded, we returned to Jamrúd, and I returned to Pesháwar and personally reported to Your Excellency all that had taken place.
- 15. In conclusion, I would desire to bring to Your Excellency's favourable notice the ready and courteous assistance I received from Colonel Jenkins.

The Khaibar arrangements were managed by Arbáb Fatch Muhammad Khan, and I purpose bringing his services to notice in due course.

Dated Camp Pesháwar, 22nd September 1878.

From—Lieutenant-Colonel F. H. Jenkins, Commandant, Corps of Guides (Q. O.), To-Captain St. V. Hammick, Military Secretary to Sir Neville Chamberlain.

I HAVE the honour to make the following report for the information of His Excellency General Sir Neville Chamberlain, G. C. B.

- 2. According to his orders, I marched from Peshawar early on the 21st September, with the camp of the Kabul Mission, and reached Jamrúd soon after 7 o'clock.
- 3. About 8 o'clock Major Cavagnari arrived' in camp, and told me that. he was going up to Ali Masjid to get an answer from the Officer Commanding regarding the passage of the Mission through Ali Masjid, and its safe conduct to Kabul.
- 4. After a short delay, to allow the headmen of the Kuki Khel Afridis to send some of their people ahead of us up the Khaibar Pass, to tell Faiz Muhammad Khan that Major Cavagnari was coming to talk to him, and that he had only a small escort with him, Major Cavagnari and I started from Jamrúd, having with us Captain Wigram Battye and twenty-four men of the Cavalry of the Corps of Guides.
- 5. We marched by the gun-road made by Colonel Mackeson in 1840; which we found in very good order, and, before noon, reached a hill, from which we could plainly see Ali Masjid, about three-quarters of a mile distant from the fort.

- 6. When the people in Ali Masjid saw our uniform on the hill they immediately made preparations to resist us. Some manned the walls of the fort, and some occupied a ridge, along the foot of which the road between us and Ali Masjid ran. At the same time, one or two signal shots were fired.
- 7. If we had advanced, then I am sure that we should have been at once engaged with 300 or 400 men under circumstances of great disadvantage, for we should have been fighting on the lower ground, with the enemy strongly posted on our front and right flank. Besides this, I am persuaded that the Amír's officers would have excused themselves from all blame for what might have happened, by saying that we had rashly come into collision with their troops without giving time for explanation.
- 8. Under these circumstances, Major Cavagnari, wisely I think, decided to remain on the hill, where we were, for a short time; but it was agreed that if Faiz Muhammad could not be induced to come and meet us, Major Cavagnari and I, with a couple of men, were to go towards the fort and get an answer to the question he had come to ask.
- 9. After waiting on the hill for about two hours, during which more than one message was sent to Faiz Muhammad Khan, Afrídi Khan, Arbáb of Malazai, came back to say that the Sardár was coming to meet us in the valley below, where we were standing. Shortly after this, we saw Faiz Muhammad coming with fifty or sixty followers, and Major Cavagnari and I, with two men of the Guides, went down and met him. Major Cavagnari had also with him Fatch Muhammad Khan, Arbáb Afrídi Khan, and a few of the Kuki Khel Afrídís who had come with us up the Pass; also Bahádur Sher Khan, the Bangash Chief.
- 10. After shaking hands with the Sardár, we crossed the stream, and sat down under a tree close to the village of Lala China. Directly we sat down, several more of the Sardár's followers turned up, and we had 150 or 200 of them close round us while we sat and talked.
- 11. Major Cavagnari began by saying that the British Government was sending a peaceful Mission to the Amír Sher Ali Khan, of which due notice had been given to the Amír, that the camp of the Mission was at Janurúd, and that he came to ask for a passage through Ali Masjid, and a safe conduct to Kabul.
- 12. The Sardár replied that he had already written more than once to say that the Mission could not pass Ali Masjid without the Amír's sanction, which had not been received, and that we must wait, and that he would again refer to the Amír for orders on the subject.
- 13. Major Cavagnari said that the Sardár's letters had been received, but that the British Government would not believe that a peaceful Mission going to the Amír on business of importance would be refused a passage, and had, therefore, sent one of its own officers to ascertain how matters stood. Major Cavagnari added that, as the Amír knew that the Mission was on its way to him, if it was stopped at Ali Masjid the British Government would consider that the Amír had himself stopped it.
  - 14. The Sardár owned that this was true.
- 15. Major Cavagnari then asked whether, under these circumstances, the Sardár would oppose the passage of the Mission; and the Sardár said that he would most certainly do so. In fact, the Sardár never flinched from first to last, but gave us distinctly to understand that he would oppose the passage of the Mission by force, and that it was waste of time to argue with him.

- 16. Major Cavagnari then said to the Sardár—"You are a servant of the Amír, and you take upon yourself to stop a Mission going to him from the British Government with which he has long been on friendly terms. How do you know that the Amír himself will not be very angry with you for doing this?"
- 17. The Sardár replied—"What friendship is there in what you are doing now? If the Amír had given me orders, I would have gone down to Jamrud to meet you, and bring you up the Pass; but now you have come here on your own account, and bribed the Amír's servants to give you a passage. You are setting Afridís against Afridís, and will cause strife and bloodshed in this country, and you call yourself friends!"
- 18. The Afridis who were standing round us applauded this speech; and it would not have been prudent to have continued to converse in this tone. Therefore Major Cavagnari said to the Sardár—"We are both servants—you of the Amír of Kabul, I of the British Government. It is no use for us to discuss these matters. I only came to get a straight answer from you. Will you oppose the passage of the Mission by force?"
- 19. The Sardár said—"Yes, I will; and you may take it as kindness, and because I remember friendship, that I do not fire upon you for what you have done already." After this we shook hands and mounted our horses; and the Sardár said again—"You have had a straight answer."
- 20. We returned to Jamrúd by the road we came, and reached camp about 5 o'clock in the evening.
- 21. I was very much struck with the behaviour of the Kuki Khel Afridis who went with us up the Pass. Their conduct was excellent throughout the day.
- 22. I enclose a slight sketch of the ground about Ali Masjid to explain this report.

#### No. 5.

Dated Camp Jamrúd, 22nd September 1878.

From—His Excellency Sir Neville Chamberlain, G.C.B., G.C.S.I., To—Faiz Muhammad Khan, Commanding H. H. the Amir's Troops at Ali Masjid.

A. C.—You are aware that the camp of the British Mission arrived at Jamrúd yesterday, with the object of proceeding to-day through the Khyber Pass on a friendly Mission to His Highness the Amír of Kabul. Major Cavagnari and two other British officers were deputed yesterday afternoon, under my orders, to hold an interview with you, in order to obtain from you, as His Highness's Commandant at Ali Masjid, the necessary assurances of safe conduct to enable the Mission to proceed on its journey.

The said officers were prevented from approaching the fort of Ali Masjid, as your pickets were posted commanding the road, and refused to allow them (the officers) to advance. After these British officers had sought and obtained an interview with you at a place (Lala China) some short distance this side of Ali Masjid, and after you had been warned by them that your reply would be regarded as that of His Highness the Amír of Kabul, you declared that you had received no instructions to permit the British Mission to pass your post, and stated that you would certainly oppose it by force if it advanced. I am therefore commanded by His Excellency the Viceroy and Governor-General of India to inform you that your reply is considered as being that of His Highness the Amír of Kabul, and the British Mission is now returning from Jamrúd to Pesháwar. I again assure you that the British Government entertains nothing but friendly feelings and intentions towards the Chiefs and people of Afghánistán.

To

#### COMMODORE F. W. SULLIVAN, C.B.,

Senior Officer.

Sir,—I have the honor to inform you that on the 3rd instant I made an examination of the locality where the Union Mail Steamer Kafir struck, and was lost in February last.

2. The survey has not been exhaustive, as time would not allow me to fill up thoroughly the great blanks that have been left in the chart of the entire west shore of the Cape Peninsula, nor was there any occasion why a very close survey of the waters off Oliphant's Bosch should be undertaken.

The locality is well known to the fishermen, who spend great part of their lives there, and three visits that I have made by land from Simon's Town have convinced me that these men know of no danger outside the Rock, called by them the "Albatross," on which they one and all declare the Kafir to have struck, they having been eye-witnesses of her movements.

and all declare the Kafir to have struck, they having been cyc-witnesses of her movements.

3. The result of my examination is that the "Albatross" rock is 1,200 yards from the shore of Oliphant's Point, or 500 yards farther scaward than previously shown on the chart.

4. The spot where the Kafir's remains now lie is 1.6 miles to the S.-E. by S. of this rock.

#### GENERAL.

#### Simla, the 4th June 1878.

No. 378.—The Governor-General in Council is pleased to invite tenders for the lease of the Great Coco Island in the Bay of Bengal.

2. The lease will be for a period not exceeding 50 years: the exact proportion of gross produce payable as rent and the term, within the above maximum period, during which the rent offered shall be payable, are left to the tenderers.

3. In addition to the rent stipulated as payable, the lessee will be bound to defray the expense of maintaining peace in the island and on its coasts, and of the administration of civil and criminal justice. The amount of such expense cannot at present be stated; but the Government are prepared to fix a maximum of Rs. 20,000 annually, beyond which the lessee would not be charged with any expenditure on these objects. The Government will, from time to time, fix the cost of such establishments, and such cost the lessee will be required to defray quarterly in advance.

The Government reserve to themselves the administration of Civil and Criminal Justice, Customs, Excise, and other Departments of Government, and the lessee will be entitled only to the produce of the soil, and to an exclusive right of fishery for one mile from high water-mark, and to the use for local requirements, and not for sale out of the island, of such timber as it produces, and of stone, lime, sand, and other building materials.

5. The rent will be taken in kind and will consist of a fixed proportion ont less than th of the gross produce of the island. In the case of cocoanuts, the fixed proportion must be delivered free at Port Blair or any other place in the Andamans that Government may from time to time direct, in the husk, in good condition and of good quality, and must have been gathered in such proportions at the times most suitable for the manufacture of coir and oil, respectively, as the Superintendent of Port Blair may from time to time require. In the case of other produce, delivery of which will be taken in the island, the Government may at any time require the lessee to commute the produce in kind for a money payment calculated at a rate 20 per cent. below the rate then ruling in the Rangoon market for similar produce of similar quality.

The number of living cocoanut trees on the island when it is transferred to the lessee will be ascertained, and the lessee will be bound under penalty to maintain at least that number of living cocoanut trees, at once planting and rearing young trees in place of those that may die, be blown down, or otherwise destroyed from time to time. The lessee is prohibited from cutting down any cocoanut trees without the written permission of the

officer to whom Government may delegate authority to grant such permission.

7. The Government also reserve the right to appropriate sites on the island for public buildings, including dwelling-houses for officials, sanitaria, &c., paying as compensation only the cost of any improvements effected on the site appropriated. Also to appropriate any timber of spontaneous growth, and any stone, lime, sand or other raw building materials existing in the island, required for such public buildings, enclosures, &c.

8. The Government also reserve a right to refuse their assent to any transfer of the

lease of the island by the lessee for the time being. In the event of such power of refusal being exercised, the lessee will be entitled to claim that Government shall themselves take over the unexpired portion of the lease on a fair estimate of the value of the improvements effected by him or his predecessors.

9. Should the lessee in any way violate the provisions of the lease, or fail to pay the stipulated rent on the dates on which it falls due, or omit to take measures for the settlement and working of the island within a term of two years from the date of the lease, the Government will caucel the lease and re-enter on possession of the island, without compensation.

10. The Government do not bind themselves to accept the highest or any tender made. in reply to this advertisement. Tenders should be addressed to the Local Government or Administration of the Province in which the persons tendering may live or earry on business, and will be forwarded by such Local Government or Administration, after such enquiries into the circumstances of the tenderer and his ability to carry out the terms of his tender as may seem proper, to the Government of India in the Department of Revenue, Agriculture, and Commerce. Tenders from persons in the United Kingdom should be forwarded through the Secretary of State.

11. The deed of lease to the tenderer whose offer may be accepted will be prepared at his costs and charges in all things by the Government Solicitor, and upon any questions arising between the tenderer and Government in regard to the form of the lease, the opinion of the Advocate-General shall be conclusive and equally binding on both parties.

12. Tenders must be sent in within a period of twelve months from the date of this

advertisement. The following orders, issued by the Government of India in the Financial Department. are republished for general information :-

## NOTIFICATIONS.—Accounts.

#### Fort William, the 4th December 1878.

No. 2640.—In continuation of Notification No. 2515, dated 21st November 1878, the Hon'ble the President in Council is pleased to give notice that, provided that the sum

of ten crores fixed as the amount of The Transfer Loan 1879 is not earlier completed, transfers from the five-and-a-half per cent. Loan of 1859-60, to the First or four-and-a-half per cent. Portion of the said *Transfer Loan* will be accepted, at the places and in the manner advertised in the Sixth and Seventh Clauses of the Notification No. 2005, dated 12th August 1878, until sunset of Monday, the 23rd December 1878.

2. If any part of the said Transfer Loan 1879 then still remains unallotted, such transfers will, thereafter, be permitted only at the Head Offices of the Banks of Bengal,

Madras, and Bombay, and at the Bank of England.

3. The President in Council is further pleased to give notice that from this date. Notes or stock of the five-and-a-half per cent. Loan of 1859-60 will only be received for transfer to the Transfer Loan 1879, whether in India or England, subject to the condition that the whole amount of the said Transfer Loan 1879 (Ten Crores of Rupees) has not been previously allotted elsewhere.

4. If, after the receipt of any Note or Stock thus surrendered, it shall be found that the whole of the said Transfer Loan 1879 has been previously allotted elsewhere, such note

or stock will be returned to the owner.

No. 2689.—The President in Council directs that the following Financial Despatch from the Sceretary of State, No. 353, dated 17th October 1878, and its enclosure, be published in the Gazette of India for general information.

> FINANCIAL. No. 353.

INDIA OFFICE, London, 17th October 1878.

To His Excellency the Right Hon'ble the Governor-General of India in Council.

My Lord, -I forward herewith copy of the report of the Deputy Master of the Royal Mint on the Pyx Coins of the Calcutta and Bombay Mints for Dated 26th September 1878. the year 1877.

- 2. The Report states that "the standard weight of the coins has been maintained with the usual accuracy and their average composition, as ascertained by assay, is generally satisfactory, the coins from the Calcutta Mint being slightly in excess of the standard fineness."
- 3. As intimated in the Financial Despatch to your Government, dated the 11th November 1869. No. 387, you will observe that parting assays have been made of the silver coins of both the mints in order to ascertain the average proportion of gold contained in them, the result of which is shown in the Report.
  - 4. A copy of the report has been transmitted to the Government of Bombay.

I have, &c.,

Sir,—The examination of the Pyx coins of the Indian Mints, transmitted to me by direction of the Lords Commissioners of H. M.'s Treasury on the 21st August last being completed, I have the honor to report on the weight and fineness of the coins and to return the Bullion remaining.

The coins were first weighed singly by the Mint Balance, and were then handed to one of the Assayers of the Mint, by whom each coin has been separately assayed and reported upon.

The standard weight of the coins has been maintained with the usual accuracy, and their average composition, as ascertained by assay, is generally satisfactory, the coins from the Calcutta Mint being slightly in excess of the standard fineness.

In accordance with the directions of their Lordships, I have caused "Parting" Assays to be made of the

Silver coins of each Presidency, in order to ascertain the average proportion of Gold contained in them, and the result is shown in my report. These assays have been made in the manner detailed in my Report of the 25th October 1869.

By order of the Directors, R. HARDIN, Secretary and Treasurer.

## Lime Supply for Bengal.

NOTICE is hereby given that the leases of the undermentioned valuable lime quarries, situate in the Khasi and Jaintia Hills, Assam, will be put up to auction sale at the office of the Deputy Commissioner of Shillong, Khasi Hills, at noon, on the 2nd of January 1879.

The leases will be for three years, commencing from 1st January 1879 and ending 31st December 1881.

Not more than three leases will be permitted to be purchased in one interest.

Any quarry not worked i.e. not worked to turn out.

purchased in one interest.

Any quarry not worked, i.e., not worked to turn out more than 40,000 maunds, will be liable to resumption, and the Government will be at liberty to work such resumed quarry by direct agency.

The rent will be payable half-yearly in advance.

For further particulars apply to Deputy Commissioner, Khasi and Jaintia Hills, Shillong.

# [First Publication.] NOTIFICATION.

The 10th December 1878.—Under section 79 of Act VIII of 1878 (the Sea Customs Act), the Lieutenant-Governor has been pleased to appoint the Commissioners for the Port of Calcutta, to issue licenses for and register cargo-boats plying within the limits of the Port. Under that section, and under section 7(k) of Act XII of 1875 (the Indian Ports Act), the following Rules are hereby prescribed for regulating the grant of such licenses and the levy of fees by the said Commissioners. These rules shall come into force on the lat March 1879, but no fees shall be chargeable thereunder for licensing any cargo boat or manjee during the currency of any license issued by the Collector of Customs before that date:—

Rules sanctioned by the Lieutenant-Governor of Bengal for the Registration, Licensing and Regulation of Cargo-boats under the provisions of Section 79, Act VIII of 1878, and Section 7 (k) of Act XII of 1875.

1. No cargo boat of any description shall ply within the port, unless licensed and registered by the Port Commissioners under section 79, Act VIII of 1878. No licensed and registered cargo-boat shall be allowed to ply within the port, except under the direction of a manjee licensed and registered by the Port Commissioners.

- 2. Each application for the licensing and registration of a cargo-boat must be made in writing to the Port Commissioners, and contain particulars of the owner's name and residence and the tonnage of the boat; and in the event of the owner not residing in Calcutta, the name and address of the agent duly authorized to act for him.
- 8. Every license granted under these rules shall continue in force until and upon the first day of April next after the date thereof. If granted in the month of March in any year, such license shall continue in force until and upon the first day of April in the year next following that in which the same shall have been granted, except in either case the same shall be sooner revoked. The license is not transferable, and if the ownership of the boat is changed, notice of the transfer must be given to the Port Commissioners before the boat again plies in the port.
  - 4. No license shall be granted to any cargo-boat until such boat has been surveyed by a surveyor duly appointed for the purpose, and he shall have granted a certificate stating that the boat is in good order and suited for the conveyance of cargo within the port— (a) the tonnage of such boat, (b) the quantity of cargo she is authorized to carry, and (c) the number of crew required for the safe navigation of such boat according to the following

- 7. The owner or his agent or the manjee in charge of any licensed boat shall not permit any quantity of cargo, more than that for which such boat has been licensed, to be carried in such boat at one time, and shall not permit such boat to ply unless provided with the number of crew stated in the license. The boat must be kept thoroughly clean and be provided with a pump, ground tackle, and fittings in working order, as specified in the
- 8. The license granted for any cargo-boat may be revoked whenever such boat is, in the opinion of the Port Commissioners, unfitted for the conveyance of cargo, or when any breach of the conditions of the license, of the Port Rules, or of the Sea Customs Act has been committed by the owner or his agent or the manjee in charge of the boat.

9. No cargo-boat shall lie at the Inland Vessels' Wharves unless when receiving or discharging cargo, and all cargo-boats shall cast off from the mooring posts and move from one.place to another when required by an officer duly authorized by the Port Commissioners.

10. No cargo-boat shall obstruct the free navigation of the port, or the approaches to wharves, jetties, or landing-stages, and no cargo-boat shall be moored or land or ship goods at any bathing ghat.

Not more than three cargo-boats shall make fast to one mooring buoy at the same time, and any cargo-boat which has made fast to a mooring buoy shall cast off when required by an officer duly authorized by the Port Commissioners.

12. Every licensed cargo-boat shall be provided with an iron caboose to be kept on deck, and no fire shall be permitted in any other part of the boat. Every such cargo-boat shall carry a light in a lantern in the forepart of the boat, where it can be distinctly seen when under weigh after dark.

13. The manjee of a licensed cargo-boat plying at the port shall not be allowed to keep on board any private stores other than those which are necessary for the use of the

crew for a period not exceeding one week.

14. The Port Commissioners may, if they think at any time order any licensed cargo-boat to be re-surveyed without any charge to the owners, and they may also revoke at any time any license granted to any owner or manjee, and it shall be competent to the Commissioners to refuse any application for the issue of a license.

15. Whenever any accident shall occur to a licensed cargo-boat, the manjee in charge or the owner of the boat shall at once proceed to the nearest River Police Station and report

the circumstances connected with the accident to the officer in charge.

16. The owner, or agent, or manjee of a licensed cargo-boat, who shall, without good reason, refuse to carry cargo in such boat, shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have the licenses of the boat and the manjee revoked.

17. Every licensed cargo-boat when plying shall have its license on board, and it shall

be produced when required.

18. Any owner of a licensed cargo-boat who may withdraw it from plying, except for the purpose of repairs or other sufficient cause, without giving 48 hours notice to the Port Commissioners, shall, for every such refusal, be liable to the penalty prescribed by law for breach of these rules, and shall in addition be liable to have the license revoked.

Every registered manjee shall be provided with a metal license ticket, upon which shall be legibly painted the number of the manjee's license, and every such manjee, when in charge of a licensed cargo-boat, shall wear his ticket exposed to view. No manjee without such ticket shall be in charge of any licensed cargo-boat.

20. Whenever the number on any manjee's license ticket shall become obliterated or defaced, so that the same shall not be distinctly legible, and also when any manjee's license ticket shall have been lost or mislaid, the manjee shall apply to the Commissioners for a renewal thereof, and the Commissioners shall, upon the payment of the fee mentioned in the schedule, deliver to the manjee a new license ticket.

21. On the expiration or other determination of the license, the manjee shall deliver

his metal ticket to the registering officer.

22. No manjee shall lend or transfer his ticket to any other person, and no other

person shall use the ticket of a registered manice.

23. No person in charge of any licensed cargo-boat plying within the limits of the port shall use, or wear, or have any ticket resembling, or intending to resemble, the metal ticket granted under the authority of these rules.

- 24. 1.—The Opium will be sold for exportation by sea only, and no certificate will be granted

except to cover such export. 2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of. Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin,

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 309

per chost.
On bids of Rs. 1,800 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Reccipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be

re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to

6.—The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the bands of the Solicitor to the Government for realization in such manner as to him shall

7.-No tender of money, Bank of Bengal Receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the

fifth day following the day of sale, will be afterwards accepted.

8.—The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fisteenth day from the day of sale; and in case any lots of such Opium shall not be so paid for and adjusted, then the eash deposit made under the 5th Condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9.—Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

10 .- No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full

has been made by the said purchaser or his order.

11.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

-With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bond fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government super-. intending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

13.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14.—In the event of any dispute or difference touching or concerning any matter or a question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

# HIGH COURT NOTICES.

Circular Order issued by Authority of the High Court of Judicature at Fort William in Bengal.

#### CIVIL AND CRIMINAL.

No. 35, dated the 30th November 1878.

The Court has reason to believe that the provisions of Sections 179 and 180, Act X of 1877, are entirely disregarded in most of the Subordinate Civil Courts, and that the old practice continues uncheeked of taking the whole of the evidence first, not always continuously, and then perhaps days afterwards letting the Vakeels begin the case over again for argument, which generally involves reading the evidence again. The proceedings are greatly simplified when, as the law intends, the party who has the right to begin states his case and is afterwards held rigidly to it. But under the old practice great facilities were afforded to a party to mend his hand as the case proceeded, so that, when the entire evidence on his side was taken, he was in a position to present an entirely new ease to the Court. Such practices as these, wherever they exist, must be at once discontinued. Section 198 of the Code, while it allows of an adjournment for the Judge to consider his decision, in no manner warrants an adjournment to allow the Pleaders to prepare their arguments.

2. Civil Judicial Officers are required in future to insist strictly on the Pleaders conforming to the Code, and the Court will hold District Judges responsible for the observance of the practice prescribed by law in the Courts subordinate to them.

#### No. 36, dated the 13th November 1878.

\*No. 20, dated 28th July 1855.

"No. 20, dated 28th July 1855.

"So, "Bound and in Assam are reminded that the Circular Orders\* issued by the late Sudder Court to secure the better preservation of the books belonging to Courts in the interior are still in force, never having been formally rescinded, although omitted by oversight from the recent complication of the Circular Orders in force. A copy of the Circular Orders in question is appended for reference, and it is expected that their provisions will be strictly compiled with in future.

From the Registrar, to the Civil and Criminal Authorities in the Lower Provinces,—Circular Order No. 20, dated Fort William, the 26th July 1855.

With a view to ensure the better preservation of the books belonging to each of the public Offices under their control, the Court are pleased to issue the following rules which have been introduced in the Western Court:—

1st.—The Head Clerk of the English Office is to be appointed Librarian. He will be primarily responsible for the custody and preservation of the books composing the Office Library; but this will not relieve the Magistrate or other presiding authority from the general responsibility devolving on him as Head of the Office.

2nd.—Correct catalogues should be immediately made of the books in the Library. It might be useful to insert a column in the catalogue showing the date of receipt of each book. The catalogues to be of English paper, and strongly bound for permanent record.

3rd.—Each book should have a number labelled upon it corresponding to a number in the catalogue; and as fresh additions are made to the Library, they should be labelled and numbered in like manner. Each book should also be marked on several leaves with the Office stamp.

Office stamp.

4th. Whenever a book is required out of the Library by any Officer other than the Judge or Magistrate competent to require the same, the Librarian should send a receipt on a slip of paper, which the recipient will sign and return on getting the book, such receipts

to be destroyed on the book being returned to Office.

2. The above rules, without going into further detail, will be sufficient to point out the object the Court have in view, viz. the due preservation of books which are the property of Government; and all Officers are requested to act at once on the above directions, and to mention the fact of their having done so in their next Annual Report.

From the Registrar, to the Civil Authorities in the Lower Provinces,—Circular Order No. 3, dated Fort William, the 25th January 1856.

The Court are pleased to direct that the principle of their Circular Order No. 20, dated the 26th of July last, respecting the custody and preservation of the Libraries attached to the English Offices of the Zillah Judges, be considered applicable, as far as possible, to the Courts of the Principal Sudder Ameens, the Sudder Ameens, and Moonsiffs under their jurisdiction.

2. Catalogues should be formed by each Native Judge of the Regulations, Acts, Gazettes, &c., furnished by Government for the use of his Office; and on receiving charge of any judicial post, the relieving Officer should satisfy himself that the Library of the Court to which he is appointed is complete and in good order, and the catalogue correct. Should any books be found wanting, or their condition materially damaged, he should report the fact without delay to the Judge to whom he is subordinate, or else he will be held answerable for the deficiency.

# SMALL CAUSE COURT NOTICE.

UNDER Section 14, Act XI of 1865, notice is hereby given that subject to the orders of Government, the Judge of the Court of Small Causes at Narail will sit again in that Court on the dates mentioned below:—

Friday, the 27th December 1878.

Saturday, the 28th December 1878. J. Weston, Judge.

NARAIL SMALL CAUSE COURT, the 10th December 1878.

# TREASURY NOTICE.

Uncovenanted Deputy Collector Moulvi Abbool Wassay Ahmed has been placed in charge of the Lohurdugga treasury, and is authorized to draw bills on other treasuries.

J. F. K. Hewitt, Offg. Commr. of Chota Nagpore.

CAMP OPA, the 5th December 1878.

15.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1 certificate of the Opium advertised for sale; No. 2, report of the examination of such Opium.

16.—The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1877-78, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17.—Any further information respecting weight or quality of the Opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the

sale and delivery of the Opium for shipment.

18.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1879, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such-intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 60,000 chests of

Behar ... ... ... 30,000
Benares ... ... ... 30,000

Total ... 60,000

Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to

period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such Opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such Opium at a sale to be held expressly for the purpose.

# Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale, it being understood that if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for Opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the Government Gazette."

#### EX-APPRENTICES OF THE DEHREE TRAINING SCHOOL.

PUBLIC WORKS DEPARTMENT-IRRIGATION BRANCH. Fort William, the 16th December 1878. RESOLUTION.

#### READ AGAIN-

Letter from the Officiating Director of State Railways, Central System, with enclosures, No. 4329E,

dated 2nd November 1878; Letter from the Superintending Engineer, South-Western Circle, with enclosure, No. 3643, dated

15th November 1878;
Letter from the Assistant Secretary to the Government of Punjab, Public Works Department,
Irrigation Branch, with enclosures, No. 5042EI, dated 16th November 1878;
Letter from Officiating Director of State Railways, Central System, with annexure, No. 4779E'

dated 7th December 1878:

forwarding copies of reports on certain Overseers of the Public Works Department serving in those branches, who entered the service after undergoing a course of practical training at the Dehree Training School.

The following reports on two of the ex-apprentices of the Dehree Training School, who have joined the Public Works Department as Upper Subordinates. are published for general information:

From the Executive Engineer, Cossye Division, dated 12th November 1878. -has joined this division he has given me entire satisfaction. He is an excellent mechanic, and does much credit to the training he received at Dehrec. His management of the workshop for the last three months has been most satisfactory. He is industrious and obedient and a very cheerful worker.

From the Executive Engineer, New Delhi Branch Division, dated 30th October 1878. -is a steady young man, ready in his accounts, and does his work neatly, but might have more energy. Since his joining this division he has been employed on the excavation of the Gangatoli Lock. He has put up the engine, mortar mills, &c., in a manner which shows he knows what is wanted from him. D. B. Horn,

Asst. Secy. to the Govt. of Bengal, in the P. W. Dept., Irrigation Branch.

OR	SSA	•					•
DIVE.	87	Cuttack,	Dec.	14	'78	0.36	Weather—cloudy and rainy at the beginning, fine and cold at the close of the week. There was more rain in the country; at Jajpore the rainfull was 5.7 inches. The reaping of the sarad was stopped for a time, and some damage to the rubbes crops is reported. Cholera has again appeared in Jajpore town, and fever still prevails generally.
URIGEA DIVE.	88	Pooree,	<b>9</b> >	12	,,	0.94	Weather—seasonable. The sarad rice is being harvested. Mustard and arhur crops have suffered some loss on account of the late rains. Common rice is selling at 13\frac{1}{2} to 26\frac{1}{2} seers for the rupee. Public health is good.
,	89	Balasore,	*1	13	. "	0.31	The crop, though a fair one, is not quite all that was expected, as the late and untime y rains have been unfavourable to the standing rice.

	40	Hazareebagh,	, Dec	e. <b>13</b>	*78	0.20	Rain fell on the 10th instant. Weather has since been much colder. The reaping of the rice crop is nearly completed. The prospects of the winter crops are good. Sporadic cases of small-pox in the district.
	41	Lohardugga,	••	14		0.85	Weather—bright and cold after the recent fall of rain. No change to report. Paddy has been almost all harvested with fair outturn. In Palamow it is estimated that the outturn will be about 12 annus. Rubbee promises well.
	42	Singbhoom,	"	13	,,	2.12	Rain on four days. Weather is now cold and seasonable. The rain will have much benefited the cold-weather crops. No other change to report.
	43	Manbhoom,	"	14	,,	0.20	The weather is not what it ought to be, viz. bright and cold. The prospects of the crops are reported as excellent everywhere, and the harvesting of the dhan is now nearly completed. Cholera is still reported from the south-east of the district.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. Al! the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

The following are the conditions of sale: -

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. - Each lot shall contain five chests.

DRPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be

re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by

the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7.—No tender of money, Bank of Bengal Receipts, or public securities, on account of Opium upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8.—The Opium advertised for sale shall be paid for not later than by 4 o'clock of the fifteenth day from the day of sale; and in case any lots of such Opium shall not be so paid for and adjusted, then the cash depesit made under the 5th Condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9.—Purchasers taking out certificates or orders for the delivery of Opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

10.-No deposit of public securities under the fifth of the present Conditions will be received in this Office except from the party recorded as the purchaser in the sale book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full

has been made by the said purchaser or his order.

11.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

13.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there

remain a sufficient number of lots of the Opium to complete the said twenty-five.

14.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:-No. 1 certificate of the Opium advertised for sale; No. 2, report of the examination of such Opium.

16.—The public are hereby informed that, in providing the investment of the Behar and Benares Opium for the year 1877-78, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17.—Any further information respecting weight or quality of the Opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1879, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided however that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for Opium within the time above mentioned, the entire quantity of about 60,000 chests of

Chests. 30,000 80,000 Behar Benares Total 60,000

Behar and Benares, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed

period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for,

either by increasing the quantity reserved at the sale next ensuing after the date fixed for. payment, or by selling such Opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such Opium at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in Opium, it is agreed between the high con"tracting parties that at each of the periodical sales of that article there shall be reserved for
"the French Government, and delivered upon requisition duly made by the Agents of His
"Most Christian Majesty, or by the persons duly appointed by them, the number of chests
"so applied for, provided that such supply shall not exceed three hundred chests in each year,
and the price for the same shall be determined by the average rate at which Opium shall
have been sold at every such periodical sale, it being understood that if the quantity of
"Opium applied for at any one time shall not be taken on account of the French Government

## FOREIGN DEPARTMENT.

NOTIFICATIONS.—POLITICAL.

Camp Lahore, the 17th December 1878.

No. 257C.P.—In continuation of Foreign Department Notification No. 86P, dated 30th November 1878, the following letter is published for general information:—

Translation of Amir's reply, dated 19th November 1878, to His Excellency the Viceroy's letter dated 29th October 1878.

Be it known to Your Excellency that I have received and read, from beginning to end, the friendly letter which Your Excellency has sent in reply to the letter I despatched by Nawab Ghulám Hassan Khan. With regard to the expressions used by Your Excellency in the beginning of your letter, referring to the friendly character of the Mission and the good-will of the British Government, I leave it to Your Excellency, whose wisdom and justice are universally admitted, to decide whether any reliance can be placed upon good-will if it be evidenced by words only; but if, on the other hand, good-will really consists of deeds and actions, then it has not been manifested by the various wishes that have been expressed, and the proposals that have been made by British Officials during the last few years to Officials of this Godgranted Government,—proposals which from their nature it was impossible for them to comply with.

One of these proposals referred to my undutiful son, the ill-starred wretch Muhammad Yakub Khan, and was contained in a letter addressed by the Officials of the British Government to the British Agent then residing in Kabul. It was written in that letter that if the said Yakub Khan be released and set at liberty, our friendship with the Afghan Government will be firmly cemented, but that otherwise it will not.

There are several other grounds of complaint of a similar nature which contain no evidence of good-will, but which, on the contrary, were effective in increasing the aversion and apprehensionalready entertained by the subjects of this Godgranted Government.

With regard to my refusal to receive the British Mission, Your Excellency has stated that it would appear from my conduct that I was actuated by feelings of direct hostility towards the British Government.

I assure Your Excellency that, on the contrary, the Officials of this God-granted Government, in repulsing the Mission, were not influenced by any hostile or inimical feelings towards the British Government, nor did they intend that any insult or affront should be offered; but they were afraid that the independence of this Government might be affected by the arrival of the Mission, and that the friendship which has now existed between the two Governments for several years might be annihilated.

A paragraph in Your Excellency's letter corroborates the statement which they have made to this Government. The feelings of apprehension which were aroused in the minds of the people of Afghanistan by the mere announcement of the intention of the British Government to send a Mission to Kabul, before the Mission itself had actually started or arrived at Peshawar, have subsequently been fully justified by the statement in Your Excellency's letter, that I should be held responsible for any injury that might befall the tribes who acted as guides to the Mission, and that I should be called upon to pay compensation to them for any loss they might have suffered, and that, if at any time those tribes should meet with ill-treatment at my hands, the British Government would at once take steps to protect them Had these apprehensions proved groundless, and had the object of the Mission been really friendly and no force or threats of violence used, the Mission would, as a matter of course, have been allowed a free passage, as such Missions are customary and of frequent occurrence between allied States. I am now sincerely stating my own feelings when I say that this Government has maintained and always will maintain the former friendship which existed between the two Governments, and cherishes no feelings of hostility and opposition towards the British Government.

It is also incumbent upon the Officials of the British Government that, out of respect and consideration for the greatness and eminence of their own Government, they should not consent to

inflict any injury upon their well-disposed neighbours, and to impose the burden of grievous troubles upon the shoulders of their sincere friends; but, on the contrary, they should exert themselves to maintain the friendly feelings which have hitherto existed towards this God-granted Government, in order that the relations between the two Governments may remain on the same footing as before; and if, in accordance with the custom of allied States, the British Government should desire to send a purely friendly and temporary Mission to this country with a small escort not exceeding 20 or 30 men, similar to that which attended the Russian Mission, this Servant of God will not oppose its progress.

#### SIZE AND WEIGHT OF INDIAN TEA CHESTS.

THE following correspondence regarding the desirableness of securing for Indian tea chests such a uniformity of size and weight as is customary in China tea trade is published for general information.

By order of the Lieutenant-Governor of Bengal,

#### A. MACKENZIE,

Secy. to the Government of Lengal.

No. 12, dated Calcutta, the 30th November 1878.

From-A. O. Hume, Esq., c.B., Secy. to the Govt. of India, Dept. of Revenue, Agriculture, and Commerce,

To-The Secretary to the Government of Bengal.

I AM directed to forward copy of a despatch from Her Majesty's Secretary of State for India, No. 168, dated the 5th September last, with enclosures, and to request that, with the permission of His Honor the Lieutenant-Governor, you will cause copies of the papers to be circulated amongst persons interested in the tea industry in Bengal, with reference to the suggestion made in them for the adoption of chests of uniform size.

No. 168, dated India Office, London, the 5th September 1878.

From-Her Majesty's Secretary of State for India, To—The Government of India.

I TRANSMIT, for your Excellency's information, a copy of a recent correspondence\* on the

method of weighing tea, adopted by the Letter from Mr. Stalkartt (without date).

"to dated 31st August.

"from Board of Trade, dated 13th August, and its attention to the suggestion made in the conenclosure, dated 3rd August. cluding paragraph of the letter of 31st August,

to Mr. J. Stalkartt, regarding the desirableness of securing for Indian tea chests such a uniformity of size and weight as is customary in the China tea trade.

From -J. STALKARTT, Esq.,

To—Her Majesty's Secretary of State for India.

I AM a tea planter, and in the name of all the tea planters of India, beg the assistance of Government on the following subject.

Great loss is sustained by the tea planter through the system of weighing tea carried

out in Her Majesty's Custom-house in England, from 1 to 2th per chest, or 21 per cent.

This system is exposed in the *Indian Tea Gazette*, No. 21, page 97, volume II. It appears that the boxes are weighed and not the tea. The 2th logs per chest is as much Her

Majesty's as the planters.

This supposed loss had been brought to the notice of planters by buyers; therefore most planters put an excess into the chests, in some cases 11b, and still there is loss of 21b per chest. The Euglish brokers tell us that this is not their fault, but the fault of Her Majesty's Customs, and they have no power to remedy it. I therefore, in the name of my brother tea planters of India, beg your most noble assistance, in that you will, of your goodness, bring this deficiency to the notice of Her Majesty's Board of Customs, as this is Her Majesty's

loss as well as the planters, "so that the teas may be weighed and not the chests."

Also, that duplicate weights of Her Majesty's Custom-house be forwarded to all the tea districts of India, that each planter may have his weights tested and corrected yearly before the season commences. It is thoroughly absurd to arrive at the weight of the tea by weighing the chests. A broken chest can never weigh as much as a chest unopened. A great outcry is made, because the tare of the chests in England is less than the tare at the factory in India, where the tea is made and is carried down in all the invoices, for it would damage the teas to expose them to the damp air in Calcutta. The air of the tea districts is much more damp than the air of Calcutta, so that it is not possible to supply dry chests. Chests love weight gradually upon the road, and on arrival in England the loss is from 1 to 21b. This is deducted from the tea and not from the chest: hence a loss both to Her Most Gracious Majesty as well as to your humble servants, the planters. Again, all teas are thoroughly desiccated, or they would not keep, so that on opening the chests and bulking they are more likely to gain than to lose weight.

Furthermore, we object to our teas being bulked, as this exposure reduces the value of the teas: it is not a raw article like hides or corn, but more like preserved provisions, that

would be spoiled if every pound tin was opened for examination.

If any doubt should arise respecting the contents of any invoice, a guarantee having been given, it can always be verified by a certain percentage being opened and tested by weighing tea, not the chest.

Dated India Office, London, the 31st August 1878.

From—The Under-Secretary of State for India,

To-J. STALKARTT, Esq.

I AM directed by the Secretary of State for India in Council to acknowledge the receipt of your letter, received on the 6th June last, addressed to Viscount Cranbrook, on the subject

of the method of weighing tea at the English Customhouse, and to forward in reply a copy of a letter

received at this office from the Board of Trade, enclosing one from the Commissioners of Customs, from which you will perceive that both those departments are opposed to any alteration in the direction suggested by you. I am to add that, from inquiries instituted by Lord Cranbrook, it would appear that great irregularity exists in the sizes and weights (when filled) of the Indian chests, and I am to suggest that, if the same uniformity in this respect were attained as has been secured in the China teatrade, there would probably be less ground of complaint on the score of delay and erroneous

Dated Board of Trade, London, the 13th August 1878. From-The Secretary to the Board of Trade, London,

To-The Under-Secretary of State for India.

I AM directed by the Board of Trade to acknowledge the receipt of your letter of the 28th ultimo, transmitting, by direction of the Secretary of State for India, a letter from Mr. J. Stalkartt, in which he complains of the method of weighing tea adopted by the Eng-

lish Custom-houses, and requesting the opinion of the Board of Trade thereon.

In reply, I am directed to state that the Board of Trade have been in communication with the Commissioners of Customs on the subject, and have Dated 3rd August 1878.

Dated 3rd August 1878.

received from them a letter, of which a copy is annexed,
for Lord Cranbrook's information.

In this letter the Commissioners state generally that the regulations now in force have the approval of the trade in this country, and they oppose any alteration.

Under these circumstances, the Board of Trade are not prepared to express any opinion adverse to the practices of which Mr. Stalkartt complains, which appear to be primarily matters for the consideration of the Customs in their dealings with traders here, and which ought to be regulated by what is due to the revenue on the one side, and the convenience of the trade on the other. The Board of Trade are the more disposed to this view because of the interest the Customs would apparently have in agreeing to what Mr. Stalkartt suggests in order to get more duty than they now receive.

Dated Custom-house, London, the 3rd August 1878.

From-The Assistant Secretary to the Commissioners of Her Majesty's Customs, London,

To-The Secretary to the Board of Trade.

THE Commissioners of Her Majesty's Customs having had under consideration Mr. Giffen's letter of the 2nd instant, transmitting copy of a letter addressed to the Board of Trade by the Secretary of State for India in Council, enclosing a communication from Mr. John Stalkartt, in which he states that great loss is sustained by the tea planters in India in consequence of the system of weighing tea followed at the Custom-houses in this country, and Mr. Giffen having signified the request of the Board of Trade to be favoured with the views of this Board upon the subject, I am desired to point out that the objections brought forward in Mr. Stalkartt's letter, and in the correspondence annoxed to it, refer mainly to the process by which this Department arrives at the tare to be deducted for the chests in which the teas are contained, and to the draft of 11b allowed to the buyer in this country, and as regards the first of these objections, I am to acquaint you, for the information of their Lordships, that Indian teas (like those from China) are weighed and tared to the even pound on importation into this country, the practice being to reject any odd number of ounces when taking the gross weight of the full chest, and to take the next complete pound beyond the actual weight when weighing the empty chest to ascertain the tare to be allowed. system may operate to some extent to the advantage of the purchasers of the tea in this country, by giving the net weight of the tea for duty, and, as between buyer and seller, at somewhat less than the quantity really contained in the chest, but the arrangement having been in operation for many years, and being acquiesced in by the trude generally, the Board of Customs are not prepared to recommend that it should be altered.

If the practice of weighing to the even pound be observed at the gardens, and the teas are placed in dry chests, there should be no difference between the gross weights of the packages as taken at the gardens and this country; but it is stated in Mr. Stalkartt's letter that the air of the tea gardens is very damp, and that the packages dry in transit to Calcutta,

and therefore some loss in the gross weights may reasonably be expected.

From enquiries which have been made, it is ascertained that 1 per cent. is about the average loss on garden invoices, so far as regards Customs weight; in some iustances, however, there is a gain on the gross weight, tare, and net weight, showing that the weight taken at the gardens is not reliable.

As regards the 11b draft allowed to the trade, and which accounts for half the loss complained of, I am desired to observe that it is a trade practice of many years' standing, applicable equally to Chinese as to Indian tea, and that it is not probable that the trade in

this country would acquiesce in any proposal for its discontinuance.

Mr. Stalkartt requests "that the tea may be weighed and not the chests," but this arrangement could not be carried out without causing delay in passing the teas, and the alteration of practice would probably be objected to by merchants and others in this country, who regard the question from a buyer's point of view.

The bulking of the tea is an indulgence which is granted on the special rejuest of the consignee or other person interested in toa in this country, but it is quite competent for Mr. Stalkartt to give what directions he thinks tit to his agents in England as regards this

With reference to Mr. Stalkartt's suggestion that duplicates of the weights used by this Department should be forwarded to all the tea districts of India, that each planter may have his weights tested and corrected yearly before the season commences, I am instructed to point out that English weights and scales, such as are used by this Department, can be purchased at any of the scale-makers, &c., in this country, and most probably also in Calcutta, and that it is for the growers to make any arrangements they may deem desirable with the local authorities to test the correctness periodically of the weights in use at the gardens.

# THE HEAVY RAINFALL OF 22nd SEPTEMBER AND ITS EFFECTS ON THE DANCOONEE DRAINAGE WORKS AND ON THE CROPS.

#### Government of Bengal.

PUBLIC WORKS DEPARTMENT-IRRIGATION BRANCH.

Fort William, the 19th December 1878.

• The following papers relative to the heavy rainfall of the 22nd September 1878, and its effects on the Dancoonee Drainage Works in the district of Hooghly, and on the crops growing on that basin, are published for general information.

By order, &c.,
F. T. HAIG, Col., R.E.,

Joint-Secy. to the Govt. of Bengal,
in the P. W. Dept., Irrigation Branch.

No. 3376, dated Calcutta, the 23rd October 1878.

Memo. by Major J. M. Heywood, R.E., Offg. Supdg. Engineer, South-Western Circle. Copy, with memorandum, forwarded to Chief Engineer, Bengal, Irrigation Branch, for information.

No. 2156, dated Calcutta, the 21st October 1878.

From-J. W. WHITFIELD, Esq., c.s., Executive Engineer, Northern Drainage and Embankment Division,

To-The Superintending Engineer, South-Western Circle.

I HAVE the honor to forward a memorandum on the Dancoonee basin and drainage works after the unprecedented rainfall of 14 inches in about as many hours on the 22nd of September.

2. The memorandum might have been sent earlier, but I was desirous of seeing the state of the crops after their submergence and the water drained off, and it is very satisfactory to find that practically no injury has been sustained, of which I satisfied myself from personal observation on the 16th.

3. The height of the water is now 12 feet, a slight augmentation having occurred since the gates were closed on the 8th; and as there is a diversity of views among the ryots as to the height of water they wish to retain, some saying they do not wish it lowered, others that they want it reduced 9 inches (half a hât), orders have been given to reduce it to 11 feet 6 inches, the average level of former years, and the gates have been opened for a day or two to reduce it to that level.

4. In about 15 or 20 days the gates will be opened for the final drainage of the basin, as the crops after that will not require any more water, and by the end of November or middle of December the entire basin will be completely drained for the reaping of the crops, in itself an advantage of no small importance.

#### DANCOONEE DRAINAGE.

Memorandum on the heavy rainfall of the 22nd of September and its effect on the Dancoonee Works and Crops.

In a memorandum dated the 3rd of September, a description is given of the effect of a rainfall of 6.06 inches in the Dancoonee basin on the 16th and 17th of August, and the rate at which the water was drained out. So heavy a rainfall is an unusual occurrence, but it is far short of the quantity that fell on the 22nd of September, which is unprecedented; at any rate there is no record of anything like such a heavy fall having occurred in so short a time. The rain commenced at about 3 A.M. on the 22nd, and ceased before 6 P.M. of the same day, but the

largest portion fell between 7 and 12 A.M. There fell at the following places on the margin of the Dancoonec basin:—

2. The height of the water at Jheckaree, the middle of Dancoonee Jheel, on the 21st was 11 feet 4 inches, and the gates at Biddabattee and Bonderbill being closed, the level of the water was the same throughout; 11 feet four inches is the normal height required by the rice crops at that date. On the morning of the 22nd the water level had risen to 11 feet 6 inches, and in the evening to 12 feet 6 inches. On the 23rd the water rose to 13 feet 6 inches, its highest at Jheekaree. At Biddabattee it was one inch higher, but at Bonderbill it never rose higher than 13 feet. This, as explained in the former memorandum, is caused by the greater part of the catchment basin being to the north of the jheel, and in flowing towards the jheel and Bonderbill through the rice crops, the water assumed a surface gradient of nearly an inch a mile, that is, the distance in a straight line from Biddabattee to Bonderbill is 7½ miles, and the level of the water on the 23rd at Biddabattee was 13 feet 7 inches and at Bonderbill 13 feet.

3. On the morning of the 23rd all the gates were opened for drainage and remained open until the 8th of October, when they were closed at the request of the ryots, the water being then reduced to 11 feet 11\frac{3}{4} inches at Jheekaree. It was represented by the ryots that, if the support of the water was further diminished, the crops would be likely to fall down and be greatly injured.

be greatly injured.

4. The following statement shows the daily height of the water in Dancoonce basin and the height of the river water outside the sluices. The rate at which the level of the water was lowered was very much retarded by the high state of the river caused by the coincidence of the spring tide which happened to be the highest of the year:—

Konderbill gates closed at night tide.  On the 8th the gates were closed on the application of a great number of the ryots. Others stated they would prefer more dramage, but the general feeline was to stop dramage, and to this the Supervisor consented.

5. It will be seen from the statement that on the 28th the tide outside the Biddabattee sluice was 18 feet 1 inch, and was within a few inches of that height for four consecutive days, and as this was in consequence of the high state of the river in conjunction with the tide, the low water level was high in proportion, and therefore little time left for drainage, as is seen from

the slow rate at which the water in the jheel was lowered during the five days between the 26th and 30th. The supply in the Dancoonee basin was further augmented by the additional rainfall of 2.20 between the 22nd and the closing of the gates, as well as by the spill across the Sarsuttee from the accumulation on the low land extending several miles northward. This water being prevented by the tide and flood in the Hooghly from flowing out by the Koontee nuddee, and the Sarsuttee drainage being obstructed by bunds made across the channel, it overflowed into the Dancoonee basin and increased largely the quantity of water to be drained out, as was seen by the strong current flowing through the Hurripal road towards Biddabattee sluice.

6. At Bally sluice the tide was lower than at Biddabattee, and the out-flow by that gate was consequently of longer duration each day than at Biddabattee. At extreme springs the difference at high-water was 3 feet. At Biddabattee it was 18 feet 1 inch, and at Bonderbill 13 feet 1 inch. At neap-tides the difference on the 2nd of October was 9 inches, Biddabattee being 14 feet and Bally 13 feet 3 inches. In consequence of this difference in the height of the tides, the Bally sluice has a greater discharging capacity than the Biddabattee sluice but being more remote from the central gathering ground, the water level at Bally sluice is slightly lower than in the central and northern part of the jheel, as shown in the statement of daily

level of the water; this somewhat diminishes the advantage from the lower tides.

7. The crops over the deeper and greater part of the basin being well grown and above the surface of the water are uninjured. Only those late in being planted, which are on comparatively high ground, were entirely submerged; their complete submergence lasted five to eight days, from the 23rd to the 27th and 30th of September. It was feared they would be completely destroyed, but such has not been the case, as it was found, on the water being drained off, they had suffered but little injury. Of the total area which at first was completely under water, only the plants on about 100 beeghas are destroyed, and on about 12 square miles or 3,000 beeghas they have been deteriorated, as far as can at present be ascertained from inquiry on the spot, to the extent of about a quarter from what they would have been if the heavy rainfall had not occurred. Their recovery, however, since the water has been drained off, has been so rapid and so great that it may be, after a week or two more, there may be no trace of the injury left, except in the small quantity of 100 beeghas destroyed; where destroyed the ground is high, in some places over 15 feet above mean sea datum.

8. Assuming that the injury above estimated will be found to be correct (although that cannot be definitely ascertained until the crops are nearer maturity), it will amount only to a very small fractional part of the entire area brought into cultivation and improved by these works.

Total area reclaimed and improved, 44,000 beeghas.

Area of crops injured to the extent of 1, 3,000 beeghas.

Area of crops destroyed, 100 beeghas.

Then  $\frac{2.000}{4}$  injured=750 beeghas destroyed and  $\frac{750 + 100}{44.000} = \frac{1}{4} \frac{100}{100} = \frac{1}{24} = 1.92$  per cent. the quantity less than would have been the yield if this unprecedented rainfall had not occurred. If, however, the drainage works had not been constructed, the crops below the contour of 13 feet would have been destroyed, and those in the zone between 13 and 15 feet would have been seriously injured and not improbably destroyed, as the water would have stood at a height of 17 feet or more for 10 days at least. This is easily proved. The average height of the water in the Dancoonce basin in August and September, previous to the tide and Hooghly floods being excluded, was 15 feet. On the 22nd of September the water level was raised 2 feet in less than 24 hours by a rainfall of 14 inches over the basin, and remained at that height notwithstanding the drainage outflow through waterways of an aggregate area of 1,352 square feet. The old waterway through the old khalls formerly was not a fourth of this. The 2 feet accumulation in the central part of the basin would have raised the height of the water to 17 feet, and would have been daily increased by the in-flow from the outer edge of the basin and the spill across the Sarsuttee, as well as the in-flow from the tide, which for four consecutive days, 26th to 29th, rose at Biddabattee to close upon 18 feet; so that there would have been no chance of the water falling below 17 feet (and it might have been higher) till several days after the spring tides, probably till the 4th of October, that being the date on which the subsidence commenced in Howrah district. There can, then, be little doubt but that, as stated above, all the crops below the contour of 13 feet must have been destroyed, and those in the zone between 13 and 15 feet, if not destroyed, would have been very seriously injured. This, contrasted with the result of the unexpected test of the present season, is the strongest proof that can be adduced both of the advantage and sufficiency of the present works.

9. The places where the crops were entirely submerged were in the village of Monohurpoor, between the Bally channel and Ooterparah road; in the village of Beloo, on both sides of Jheekaree road; in the villages of 1 irhango on the west side of the channel, north of Hurring road, between Hurripal road and Biddabatee old road, and a portion on the east side of the channel, south of Biddabatee old road and in the village Hurreepoor, besides a few other places A part of the submerged portion, amounting altogether to not more than 3,000 beeghas, has not yet fully recovered its condition. The places where the crops are destroyed are in villages of Dirhango and Hurreepoor, and it may be a few small patches elsewhere, altogether as already stated, not exceeding 100 beeghas. All of this is on high or comparatively high ground.

The question as to how far the benefit of these drainage works extend and the lands that should be made to contribute to the cost of the works receives an unexpected illustration from this heavy rainfall. It is contended on one side that only the lands below the irrigation level of 11 feet 6 inches are benefited, and that they alone should contribute to the cost of the works. On the other side, it is represented that all lands up to the flood leve contour derive advantage from the protection, and should pay proportionately. It has been shown

been inspected, and it is found that all the crops below the contours of 12 feet are completely destroyed, and it may be those even on a higher level. The highest rise of the water was 15 feet 3 inches on the 25th of September, and continued a long time at mearly that height. On the 21st of October it had only gone down 7½ inches. The average flood water level in Rajapore is 1 foot 0 inches lower than it was in Unacconce. The former is 13 feet 6 inches and the latter was 15 feet.

that in the present season a large proportion of the crops below 13 feet would have been destroyed, and those between the contours of 13 and 15 feet, if not destroyed, would have been seriously injured; but owing to the drainage works that have been constructed they have had almost complete immunity.\* This cannot be denied. It therefore follows that as the crops on the land up to the 15 feet contour have this season derived nearly as much benefit as those on the lower land, in fairness and justice to the others, the owners of these lands should contribute towards the cost of those works by which the crops have this year been saved, and it is believed are

every year greatly benefited.

It may be too late to open up the question as regards the Dancoonee basin and works as the apportionment of charges have been already made, but in other works of a similar nature the fact should not be lost sight of.

11. It may not be out of place here to refer again to the water flowing across the Sarsuttee into the Dancoonee basin and increasing the quantity to be drained off, and to urge the necessity of removing the dams made across the Sarsuttee, whether made for cultivation of the bed of the river or for the retention and storage of water. This will give a passage for a much larger quantity of water to flow off and lessen the overflow into the Dancoonee basin, and besides this I would propose to embank those places on the edge of the river where the water escapes, and thus prevent a repetition of the overflow which has twice occurred this season. The embankment required will not be very extensive, and the cost may very well be included in the maintenance of the Dancoonee works to which it fairly and properly belongs.

12. The total quantity drained off between the 23rd of September and the 8th of October might have been very easily calculated if it had not been for the spill from the Sarsuttee. Had it been the rainfall only, the quantity would have been 16.20 inches, the total rainfall, multiplied into 56 square miles, the area of the catchment basin, which gives 2,108 millions of cubic feet, or a quantity equivalent to a discharge of 24,494 cubic feet a second for 24 hours; or if evenly distributed over the 16 days the gates were open, and allowing 14 hours a day of full discharge as the equivalent of the time the water could flow out, the discharge would be at the rate of 2,625 cubic feet per second during that time, and if to this be added 325 for the spill from the Sarsuttee, the discharge will be brought up to 3,000 feet a second, which was about the observed rate on the 23rd at low water.

13. Among the conclusions arrived at from the test of a rainfall of 14 inches in one day over the entire basin, are that it has proved the works constructed to be sufficient for all the requirements that are likely to arise, as it is hardly to be expected that a heavier fall of rain will ever occur, and at the same time to be coincident with the highest tide of the year which closed the drainage for an unusually long time. Another is, that the rice plants will remain submerged in clean water without material injury from six to eight days, and that, if only the points of the tops are above water, they will remain a much longer time without being much the worse. In other places, where muddy tidal water covered the rice plants and they remained under water not more than three days, they have been destroyed.

14. The sluices and channels of the Dancoonee works are uninjured.

No. 2537, dated Calcutta, the 3rd December 1878.

From-J. WHITFIELD, Esq., c.E., Executive Engineer, Northern Drainage and Embankment Division,

To-The Superintending Engineer, South-Western Circle.

Reference to your No. 3810, dated the 29th ultimo, I have the honor to state that I have this day inspected that portion of Daucoonee drainage basin where, in the month of October, it was estimated about 100 beeghas of rice crops were totally destroyed and 3,000 beeghas injured to the extent of one-fourth of their value. The crops are now almost ripe and in process of reaping, and it is found that there are scarcely any totally destroyed, and that which was estimated to be injured, about one-fourth is hardly injured at all. In one of these latter fields a man had cut this crop and was gathering it in: he was asked how much it was, and replied about "fourteen annas," meaning it was fourteen-sixteenths of a full crop, and appeared quite satisfied. Another field was being reaped and the crop was "eight annas." In places where it was expected to have been totally destroyed, there are what are termed four to six-anna crops. The total amount of injury the crops have sustained will probably not amount to one per cent. In Rajapore basin, where there is no drainage, the loss is probably 80 to 90 per cent., and the Dancoonee basin would have been quite as bad, if not worse during the last season, had the present drainage works not been in operation; so that the benefit derived from them in this year alone is 80 to 90 per cent. of the value of the crops over 44,000 beeghas of land. The money value of this I leave to those benefited to estimate. It will probably be found to be not far short of five lakhs of rupees.
